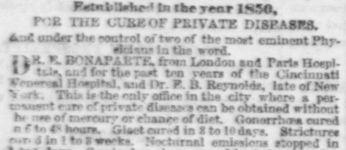
MEDICAL.

MANHOOD.
How Lost, How Restored.

Just Published, in a Sealed Envelop,
ON THE NATURE, TREATMENT, AND RADICAL CURE OF SPERMATORRHŒA, or Seminal Weakness, Sexual Debility, Nervousness, and Involuntary Emissions, inducing Impotency and Mental and Physical Incapacity.
BY ROB. J. CULVERWELL, M. D.
Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-abuse may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual by which every sufferer, no matter what his condition may be, may cure himself *cheaply, privately, and radically.* This Lecture will prove a boon to thousands and thousands.

Sent under seal to any address, *post paid,* on the receipt of two postage stamps, by addressing Dr. CH. J. C. KLINE, M. D., 127 Bowery, New York, Post Box 4,586. a5 dly



Cincinnati Venereal Hospital,
Established in the year 1850,
FOR THE CURE OF PRIVATE DISEASES.
And under the control of two of the most eminent Physicians in the world.

DRS. E. BONAPARTE, from London and Paris Hospitals, and for the past ten years of the Cincinnati Venereal Hospital, and Dr. E. B. Reynolds, late of New York. This is the only office in the city where a permanent cure of private diseases can be obtained without the use of mercury or change of diet. Gonorrhœa cured in 6 to 48 hours. Gleet cured in 2 to 10 days. Strictures cured in 1 to 3 weeks. Nocturnal emissions stopped in 1 to 6 days. Seminal weakness cured in 2 to 8 weeks. Syphilis in its primary stages cured in 3 days. Secondary symptoms cured in 1 to 2 weeks. Skin diseases cured in 1 to 3 weeks. Impotency—vigor restored in 1 to 4 weeks. All diseases of a private nature treated with unparalleled success, male or female.

Dr. Bonaparte's great work on private diseases, the private guide to health, is beneficial to all, male and female; the old and young should read this book. It will enlighten those who grope in darkness. Price 25 cents, sent by mail.

Dr. Bonaparte's Celebrated Preventive never has nor never will fail—married ladies too feeble to bear children, except at the hazard of life, should be in possession of this invention. Price reduced to $5.

Dr. Bonaparte's French Patent Male Safe! It is perfectly safe; and never fails to give satisfaction. It is the only safe and sure preventive against pregnancy and disease. The price of the French Patent Male Safe is $1 the single one, $4 per half dozen, $7 per dozen. Sent by mail.

☞ Madame Lozier's Female Monthly Pills are a safe and reliable remedy for suppressions and all female diseases. Ladies should not use them during pregnancy, as they will produce miscarriage. Price $1 per box—extra fine $5—sent to any address by mail.

Drs. B. & R. are the ones to consult, they are unquestionably acknowledged to be the champion and king of venereal disease, and the only Doctors who receive Monthly Reports from the old world; they have been accustomed from an early age of youth to witness the various diseases which afflict mankind, and to watch the progress, through a long career of professional study, in every sphere of life, from the humble abode of poverty to the mansions of the wealthy, and having ascertained beyond a doubt the vast suffering of humanity, they determined to select the generative system as their particular study, and to devote their whole attention to the alleviation of the diseases of these important functions. No letters will be answered unless they contain a remittance or a postage stamp.

The Early Physical Degeneracy OF AMERICAN PEOPLE.

JUST PUBLISHED BY DR. STONE,
Physician to the Troy Lung and Hygienic Institute,

A Treatise on the Causes of Early Physical Decline of American People; the Cause of Nervous Debility, Consumption, and Marasmus.

☞ This work is of a high moral tone, written in chaste yet thrilling language, and appeals directly to the moral consciousness of ALL PARENTS and GUARDIANS especially, detailing scientific and reliable aids and treatment for cure.

It will be sent by mail on receipt of *two 3-cent stamps.*

☞ PARENTS AND GUARDIANS! fail not to send and obtain this book.

☞ YOUNG MEN! fail not to send and get this book.

☞ LADIES! you, too, should at once secure a copy of this book.

A Word of Solemn Conscientious Advice to those who will Reflect.

A class of maladies prevail to a fearful extent in community dooming at least 100,000 youth of both sexes annually to an early grave. Those diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, Relaxation, and Exhaustion; Marasmus or wasting and consumption of the tissues of the whole body; shortness of breathing or hurried breathing on ascending a hill or a flight of stairs, great palpitation of the Heart; Asthma, Bronchitis, and sore Throat; shaking of the Hands and Limbs; aversion to society and to business or study; dimness of Eyesight; loss of Memory; dizziness of the Head; Neuralgic Pains in various parts of the body; Pains in the Back or Limbs; Lumbago, Dyspepsia, or Indigestion; irregularity of the Bowels; deranged sections of the Kidneys and other glands of the body, as Leucorrhœa or Fleur Albus, &c.; likewise Epilepsy, Hysteria, and Nervous Spasms.

Now, in ninety-nine cases out of every one hundred all the above-named disorders, and a host of others not named, as Consumption of the Lungs, and the most *insidious* and wily form of Consumption of the *Spinal Nerves,* known as *Tabes Dorsales,* and *Tabes* misenterica, have their *seat* and *origin* in diseases of *Pelvic Viscera.* Hence the want of success on the part of old school practice in treating symptoms *only.*

Dr. Andrew Stone, Physician to the Troy Lung and Hygienic Institution, is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new; it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their homes, in any part of the country, from accurate description of their case, by letter, and have the medicines sent them by mail or express. Printed interrogatories will be forwarded on application.

☞ Consumption, Catarrh, and diseases of the Throat cured as well at the *homes* of *patients* as at the Institution by sending the Cold Medicated *Inhaling Balsamic Vapors,* with inhaler, and ample directions for their use, and *direct correspondence.*

☞ Patients applying for *interrogatories* or *advice* must enclose return stamps *to meet attention.*

☞ The attending physician will be found at the Institution for consultation, from 9 A. M. to 9 P. M. of each day. Sundays in the forenoon.

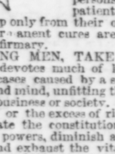
MEDICAL.

DR. HALL'S
Louisville MEDICAL INFIRMARY,
CONDUCTED ON THE PLAN OF THE HOSPITAL DES VENERIENS, PARIS.



WHERE those afflicted with any form of Private Disease can receive prompt treatment without risk or exposure, viz: Syphilis, Gonorrhea, Gleet, Strictures, Ulcers, Tumors, Cancers, Secondary, and Constitutional Syphilis, Diseases of the Kidneys, etc. By this system it is proved that the venerial complaint is as entirely under the control of medicine as is a common cold or simple fever: and, while insufficient persons are daily sending away their patients in hopelessness, and giving them up only from their own incompetency, complete and permanent cures are constantly being effected at this Infirmary.

YOUNG MEN, TAKE PARTICULAR NOTICE.—Dr. H. devotes much of his time to the treatment of those cases caused by a secret habit which ruins both body and mind, unfitting the unfortunate individual for either business or society. The sad effect of these early habits, or the excess of riper years, are to weaken and debilitate the constitution, destroy the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the vital energies of manhood; the pleasures of life are marred, the object of marriage frustrated, and existence itself rendered a term of unceasing misery and regret. Such persons, especially those contemplating marriage, should lose no time in making immediate application, as Dr. H., by his new treatment, is enabled to insure a speedy and permanent cure.

DR. HALL'S AMERICAN PERIODICAL PILLS.—No article of medicine intended for the exclusive use of females has ever yet been introduced that has given such universal satisfaction as the American Periodical Pills. They can be relied on in all cases of Menstrual Obstructions, Irregularities, &c., as a sure and safe remedy. Price, per mail, $1 and one postage stamp.

Patients living at a distance can be cured at home by sending a description of their disease and inclosing a stamp.

Medicine sent to any address.

ON A NEW METHOD of treating Syphilis, Gonorrhea, Strictures, Gleet, Sexual Debility, Impotency, Female Diseases, and all affections of the reproductive system of both sexes, the infirmities of youth and maturity arising from the secret follies of both sexes, with a full treatise on SELF-ABUSE AND SEMINAL WEAKNESS, its deplorable consequences upon the mind and body, pointing out the author's plan of treatment, the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage who entertain doubts of their physical condition. Sent to any address in a sealed wrapper on the receipt of TEN CENTS or FIFTEEN COPIES FOR ONE DOLLAR.

Those afflicted with any of the above diseases before placing themselves under the treament of any one, should first read this invaluable book.

☞ The Consulting Surgeon may be consulted daily from 9 A. M. to 9 P. M., on all diseases of which the above work treats; and patients at a distance, by sending a statement of their symptoms, can have medicines sent to any part of the country free from damage or detection. For particulars send for our Blank Chart, containing a list of questions, our terms, &c. All letters promptly answered, and communications considered *confidential.*

DR. DEWEES' FEMALE MONTHLY REGULATOR, a safe and certain remedy for Obstructions, Irregularities, &c., and is the only reliable "preventive of pregnancy."

CAUTION.—These pills should not be taken during PREGNANCY, as they are sure to produce MISCARRIAGE. Price $1 per box, and may be sent by mail.

☞ GALEN'S HEAD DISPENSARY is the only institution of its kind in the United States that has been recognized by judicial authority. Charter perpetual.

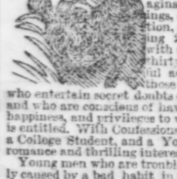
DR. LA CROIX'S
PRIVATE MEDICAL TREATISE ON THE PHYSIOLOGICAL VIEW OF MARRIAGE.
250 Pages and 180 Fine Plain and Colored Lithographs.
☞ PRICE ONLY TWENTY-FIVE CENTS. ☜
☞ Sent free of postage to all parts of the Union. ☜



ON the infirmities of youth and maturity, disclosing the secret follies of both sexes of all ages, causing debility, nervousness, depression of spirits, palpitation of the heart, suicidal imaginations, involuntary blushings, defective memory, indigestion, and lassitude, &c., comprising 250 pages, and illustrated with upwards of one hundred and thirty engravings. It is a truthful adviser to the married and those contemplating marriage, who entertain secret doubts of their physical condition, and who are conscious of having hazarded the health, happiness, and privileges to which every human being is entitled. With Confessions of a Boarding School Miss, a College Student, and a Young Married Lady, full of romance and thrilling interest.

Young men who are troubled with weakness, generally caused by a bad habit in youth, the effects of which are dizziness, pains, forgetfulness, sometimes a ringing in the ears, weak eyes, weakness of the back and lower extremities, confusion of ideas, loss of memory, with melancholy, may be cured by the author's NEW PARIS AND LONDON TREATMENT.

We have for the greater part of the past year, devoted our time in VISITING THE EUROPEAN HOSPITALS, availing ourselves of the knowledge and researches of the most skilled Physicians and Surgeons in Europe and on the Continent—such men as CIVIALE, LENOIRE, RICORD, BRECHETEAU, ACTON, and CURLINGS, of the French and English hospitals. Our tour extended through France, Italy, Germany, Holland, England, Ireland, Scotland, and Wales, visiting in our route the principal hospitals in Paris, London, Rome, Venice, Vienna, Dresden, Berlin, &c., &c. We have been amply repaid by the additional knowledge we have acquired in the treatment of various diseases to which we have directed our attention. Those who place themselves under our care will now have the full benefit of the many NEW AND EFFICIENT REMEDIES which we are enabled to introduce into our practice, and the public may rest assured of the same zeal, assiduity, SECRECY, and attention being paid to their cases, which has so successfully distinguished us heretofore as a Physician in our PECULIAR department of professional practice.

Medicines with full directions sent to any part of the United States or Canadas, to patients communicating their symtoms by letter. Business correspondence strictly confidential.

LOUISVILLE JOURNAL

☞ A bully named Warren Lundy shot and killed a soldier at a house of ill-fame in Indianapolis on Sunday.

GREAT BRITAIN'S POSITION.—The following circular has been addressed to all Governors throughout the British Possessions; is supplementary to the recent proclamation by Her Majesty, and clearly indicates that the position of Great Britain relative to the war in the United States is one of strict neutrality:

DOWNING STREET, 1st June, 1861.

SIR: You are already aware that the Queen is desirous of observing the strictest neutrality in the contest which appears to be imminent between the United States and the so styled Confederate States of America. I have now to inform you that in order to give full effect to this principle, Her Majesty has been pleased to interdict the armed ships and also the privateers of both parties from carrying prizes made by them into the ports, harbors, roadsteads, or waters of the United Kingdom, or of any of Her Majesty's colonies or possessions abroad.

It is Her Majesty's desire that this prohibition should be forthwith notified to all proper authorities within her diminions, and I am to desire that you take measures to secure its effectual observance within the limits of your government.

I have, &c., (Signed) NEWCASTLE.
Governor the Right Hon. Sir E. W. Head, Bart., &c.—*Montreal Witness, 17th.*

LIVING ON THE F. F. V. STYLE.—A soldier in the Fourth Massachusetts Regiment, writing to the Taunton Gazette from Newport News Point, expatiates as follows concerning the "chicken fixens" and negro servants with which the troops are supplying themselves down in Old Virginia:

Congratulate me on my breakfast—a broiled chicken, with new potatoes, hard bread and hot coffee, my own catching, dressing, and cooking—that's a fact, every word. "Who wouldn't be a soldier?" There was some foraging yesterday. * * * * But I shall not stop to moralize—suffice it to say that my squad of six brought in thirteen chickens, five hens, one rooster, seven eggs and three fugitive slaves, *who did the lugging.* * * * Hungry men breakfasted on broiled chicken and stolen new potatoes, with coffee ditto, and all for sixty-five cents. * * * I am happy to inform you that *I have a body servant now,* an intelligent black boy of about forty, named Jacob; I call him Jacob Faithful. He never had a father, and I don't think at this period of his earthly pilgrimage he will go in search of one. Two more are attached to our company, and we are determined to live in the F. F. V. style. We are to have roast turkey and broiled chicken for dinner to-day; broiled pork and peas to-morrow. Some are contenting themselves with roast pig. Any quantity of them at large here in the woods, and numerous bayonets have been reeking in their blood. Plenty of peas, and potatoes about the size of a hen's egg, can be had for the picking or digging. These would be destroyed by the troops trampling over them, if not converted to our use.

THE UNITED STATES MINISTER IN LONDON.—Mr. C. L. Wilson, Mr. Francis Adams's Secretary of Legation, writes as follows to the Chicago Journal of our Minister:

One of his first acts was to change the name of the Legation to the original title, and we now have here the "United States Minister" in place of the "American Minister," as it was in the days of Buchanan and Dallas. Mr. Adams has also restored the court dress of the earlier times, in place of the undertaker's short clothes worn by his predecessors.

THE BALLOON RECONNOISSANCE.—The military balloon experiment at Washington on Tuesday has been mentioned already:

The capacity of the balloon was twenty thousand cubic feet. It was provided with signal flags and a powerful telescope; but as the ascent was made late in the afternoon, and chiefly for the purpose of testing the practicability of maintaining a magnetic circuit and operating in the balloon, no reconnoissance was attempted. A circuit was established by looping one of the adjacent telegraph wires—the one between Alexandria and the War Department—with helix wires several hundred feet in length, wound upon a reel at the spot from which the ascent was made. The helix wires are very fine and flexible. They communicated with a delicate pocket Morse apparatus carried by the operator in the balloon. The helices were paid out from the reel as rapidly as the ropes attached to the balloon. An ascent of five or six hundred feet was made, and the telegraphic arrangement worked charmingly. When at the utmost elevation attained, despatches were sent to the President of the United States through the War Department.

With this telegraphic apparatus, and the means of making an aerial reconnoissance, a General may be accurately informed of everything that may be going on within a long day's march of his position in any direction.

The following is the despatch sent by Professor Lowe to the President while at his aerial height:

"To the President of the United States:

"From this point of observation, the city, with its girdle of encampments, presents a superb scene. I have pleasure in sending you the first despatch ever telegraphed from an aerial station, and in acknowledging indebtedness to your encouragement for the opportunity of demonstrating the availability of the science of aeronautics in the military service of the country.
"T. S. C. LOWE."

IMPORTANT DECISION IN A PRIZE CASE—*Washington, Thursday, June 20.*—Judge Dunlop has given an opinion in the case of the English schooner Tropic Wind. A libel had been filed in the District Court of Columbia by the United States and the captors, to condemn that vessel as a prize, and her cargo, valued at $22,000 for violating a blockade of the ports of Virginia.

The Court, in reply to the respondents, says the blockade being one of the rights incident to a state of war, and the President in substance having asserted civil war to exist, is of the opinion that the blockade was lawfully proclaimed by the President.

As to the next question, when did the blockade become effective, the Court says that notice of actual or constructive blockade will do, and there does not appear in the cause any evidence to show that the United States Government agreed to relax the law of the blockade, so as to allow British vessels to load their cargoes and come out of the port after the knowledge of the effective blockade was brought home to them.

It also appeared in evidence that in the Master Layton that he heard in Richmond of the blockade as effective, before he began to load his cargo, and was informed it commenced the 2d of May. All the evidence concurs in showing that the cargo was laden on board the Tropic Wind the 13th and 14th of May.

No principle of prize law seems better settled than that such lading violates the blockade and forfeits both the vessel and cargo. There must therefore be condemnation of both.

The Court, however, still holds under future advisement the ultimate determination of a question of fact respecting such an alleged relaxation of the strict law of the blockade in favor of British ships as would have allowed the Tropic Wind to load her cargo and come out of port after having received information that the blockade had been established.

HOW THE PRIVATEER SAVANNAH WAS TO CAPTURE THE MINNESOTA, AND CAUGHT A TARTAR. When the privateer vessel Savannah was at the dock in Charleston, just previous to her departure, the citizens and a detachment of the fair sex visited her. The captain addressed the assembly, expressing his intention of capturing the Minnesota, and dispersing other vessels which hovered about the harbor. These sentiments were received with the highest enthusiasm.

Large quantities of wine were placed on board, some of which was immediately used, but the greater portion stowed away in the lockers, to be used as occasion demanded. After seizing the merchant vessel and disposing of her, the Savannah sailed for the Perry, which purposely sailed away from her, but suddenly tacked, got to her windward and opened her port-holes. Then the Savannah saw her mistake and took to her heels. The Perry followed in full chase, throwing several shot, to which the privateer paid no attention. At last a heavy shell was thrown, which burst immediately over the vessel, striking consternation in the hearts of the bold privateers.

In a moment nearly every man of them went below, and found solace in the wines furnished them by their Charleston friends, and when the Perry captured the vessel nearly all of them were intoxicated. They knew enough, however, of their perilous situation to give the most abject signs of fear. When they face a jury in the United States Circuit Court in a few weeks, on their trial for piracy, they will probably realize their situation, and regret the crime they have committed against the Government.

JUDGE DUNLOP'S OPINION.—Our readers are aware that a case in admiralty, involving a decision of the question that has been raised respecting the right of the President of the United States to institute a blockade of the ports in the seceded States, was recently pending in the District Court of the United States for this District. The important decision of Judge Dunlop on this point will be found in to-day's Intelligencer, and the reader will find on a perusal of his opinion that the learned Judge, as well on principles of general law as in pursuance of what he cites as the established rulings of our Supreme Court, comes to the conclusion that the blockade proclaimed by President Lincoln on the 19th of April last was lawfully established as one of the rights incident to a state of civil war.

Upon the political or rather constitutional aspects of the case the decision of Judge Dunlop would seem to be definitive, though it will be perceived that he still holds under future advisement the ultimate determination of a question of fact respecting such an alleged relaxation of the strict law of blockade in favor of British ships as would have allowed the "Tropic Wind" (the vessel involved in the present cause) to load cargo and come out of port after having received information that the blockade had been established.

The reader will also find in to-day's paper a report of the points made by Mr. Carlisle, who appeared for the vessel and cargo.
National Intelligencer.

A SELF-PROPELLING RAILROAD CAR.—John H. Bradley, Esq., Superintendent of the Columbus, Piqua, and Indianapolis railroad, will exhibit in this city, some time during the coming week, a railroad car, seventy feet long, having a locomotive at the end, to be attached or detached at pleasure. It was invented and built by Mr. Romans, master machinist of the road. A car on the same plan has been run a short time on the Pittsburg, Fort Wayne, and Chicago road. The improvement made by Mr. Romans on this car is in having the water tank beneath the car. The engine and car all run on one track, and with one pair of drivers. By an ingenious arrangement, the whole thing can be turned on a table of ordinary size for locomotives. The difficulty of turning self-propelling cars has been the chief objection to them heretofore; but this is obviated by the new contrivance arranged by Mr. Romans. The baggage room occupies a place on an extended platform in the rear of the car. This new combination of locomotives and coaches is capable of making a speed of forty miles an hour.

HEADACHE FROM SUDDEN COLDS,
AND

HEADACHE—whether as a premonitory symptom of threatened disease, or as a concomitant of a disease intrenched within the system, is instantaneously relieved by
RADWAY'S READY RELIEF,
and CURED IN SIX HOURS,
BY RADWAY'S REGULATING PILLS.

There is scarcely a disease, ailment, or malady that seizes upon the human system but that one of its chief and primary symptoms is HEADACHE. The slightest derangement or the Stomach, Liver, Heart, Skin, Bowels, Kidneys, or Bladder—or a disturbance of the circulation of the blood—or interference with the perspiration—results in pain, to a greater or less degree of severity, in the HEAD.

HEADACHE

Is not of itself a disease, but it is a certain sign that foreign and unhealthy humors exist within the system, and that disease is brewing within the body. Headache, therefore, should never be neglected: it is a warning of approaching woe, a signal to the sufferer to fortify his system to resist and repel the threatened disease. Headache is not only a positive sign of threatened disease, but it is likewise a concomitant of all the most violent, infectious, epidemic, and fatal diseases that afflict mankind. In the malarious, contagious, and infectious fevers—in YELLOW, TYPHUS, TYPHOID, SCARLET, SHIP FEVER — in LUNG FEVER, PNEUMONIA, MEASLES, SMALL POX—

IN FEVER AGUE.

Chagres Fever, Marsh Fever—in all Remittent and Intermittent Fevers—in Bilious, Nervous, and Rheumatic Fevers—in Influenza, Sore Throat, Sudden Colds, in Diptheria, in Inflammations, Congestions, and Convulsions.

HEADACHE, HEADACHE, HEADACHE,

weighs down the brain with pain, and transforms the maddened brain to hideous insanity. In all these distressing forms of Headache,
RADWAY'S READY RELIEF,
and
RADWAY'S REGULATING PILLS,
are quick and positive curatives.

In all cases of Symptomthetic Headache, as disordered stomach, sudden cold, excessive indulgence, close application, &c., RADWAY'S READY RELIEF will restore the sufferer to peaceful tranquilility in a few minutes, and
RADWAY'S REGULATING PILLS
will, in six hours, purge from the system all offending humors, and restore a healthy equalization to the circulation.

Let those who are at present suffering with Headache make the experiment. In from five minutes to six hours you will be free from pain, and will enjoy a refreshing sleep. Don't wait, but try it at once.

and have cured themselves and others with these remedies, after all other medicines failed. Every one of the above named gentlemen will vouch for these remedies, as being the only medicines that restored them and their friends and those to whom they recommended them, to health.

RADWAY'S READY RELIEF.
THE MINUTE MEDICINE.

Instantaneous ease is given by Radway's Ready Relief in all cases of acute pain, internal or external. It stops in a moment the maddening agony of rheumatism, neuralgia, toothache, burns, scalds, cuts, and bruises, when applied outwardly. Torture, that if continued would cause death, is arrested by a single dose of it, in five minutes. It suspends disease, giving time for the action of the other remedies. All complaints caused by unhealthy air, such as small-pox, scarlet fever, measles, fever and ague, yellow fever, cholera, dysentery, pneumonia &c., are prevented by its occasional use. When the nervous system is paralyzed or convulsed, it produces a rapid reaction, immediately relieving spasms, convulsions, hysterics, &c. For the debilitated it is the best possible stomachic, infinitely better than alcohol in any form. Have it on hand always, for it may be required at any moment, and no drug will supply its place.

WM. SYDNEY MYERS, ESQ., HAVANA, CUBA.
HAVANA, CUBA, Jan. 2, 1858.

MESSRS. RADWAY & Co., Gentlemen: I have been a sufferer from *Acute Chronic Rheumatism for the last twenty years of my life;* my sufferings during that period, neither tongue nor pen can express. I have spent a little fortune on Doctors' bills, without deriving any substantial benefit. Recently I had one of my frequent periodical attacks. I was very ill for a week, and had not slept an hour at any one time. A Spanish friend to whom I related my sufferings, told me he had a remedy which would give me relief, and he kindly presented me with a bottle of "RADWAY'S READY RELIEF." Although skeptical of deriving any advantage from its use, I that night applied it freely on going to bed, and, to my great amazement, felt relieved and *slept soundly.* The next night, I again applied the Ready Relief, *and awoke in the morning, free from pain, having only used about half the bottle.*

Heartily do I return you my humble acknowledgments for your invaluable medicine, which may well be called a "blessing to man." * * * * Thanking you from my soul for your wonderful remedy, I have the honor to subscribe myself,
Yours, Respectfully,
W. SYDNEY MYERS.

All Pains, All Aches,
And Infirmities,
CURED! CURED! CURED!
By RADWAY'S READY RELIEF and RADWAY'S REGULATING PILLS!
ALSO—
CERTAIN OTHER GREAT CURES ARE DAILY EFFECTED WITH MARVELLOUS RAPIDITY.
By RADWAY'S RENOVATING RESOLVENT.

Humors of all kinds, Sores, Ulcers, Skin Eruptions, Salt Rheum, Tetters, Pimples, Blotches, Tumors, Scrofula, Syphilis, Fever, Sores, White Swellings, Nodes, Erysipelas, Sore Heads, Sore Eyes, Sore Mouths, Cankers, Cancers, Severe Chronic Complaints, Gout, Rheumatism, Dyspepsia, Dropsy, Bronchitis, Ulcers in the Throat, Lungs, &c.

UNHEALTHY CITIES, SICKLY CLIMATES.

Dr. Wambarie, of Curacoa, writes to the special agent of Dr. Radway as follows: This is one of the most unhealthy places in the world—medicines of known value that will cure diseases of the same character in other places have no effect upon the sick here. Radway's Ready Relief, Regulating Pills and Renovating Resolvent prove happy exceptions, for in every case where these miraculous medicines are administered, they cure the sick. I have cured the most terrible cases of yellow fever, fever and ague, typhoid fever, congestion of the liver, billious fever, by the use of the Ready Relief and Radway's Pills.

With the Ready Relief and Regulating Pills, Dysentery is harmless, Cholera becomes a pastime, and the most violent Small Pox changes to a mild form of the Varioloid. The frightful Asthma is speedily reduced to easy, unchecked breathing. In bites of snakes, and stings of insects, a single application of the Ready Relief neutralizes the poison, and soothes the irritated flesh. I have cured several cases of palpitation of the heart, rush of blood to the head, and fits of various kinds, by a few doses of Radway's Regulating Pills.

RADWAY'S RENOVATING RESOLVENT

Will regenerate dilapidated humanity, cleanse, enrich, and purify the blood, cure every kind of humors, and insure to all a clear skin and fair complexion.

FOR SORE EYES, ULCERS, AND HUMORS.

The Walking Skeleton, covered with Sores and Running Ulcers.

Before the introduction of Radway's Renovating Resolvent on the coast of South America, the streets of Callao, Valparaiso, Buenos Ayres, Rio, and other populous cities, were thronged with poor and decrepid, worn-out remnants of humanity, covered from head to foot with frightful sores and ulcers, discharging filthy and corrupt humors. The use of Radway's Renovating Resolvent has purified, cleansed, and healed the dread 'n every case. No more foul and disabled lepers no more foul and sore-eaten bodies are to be seen in the public streets; for in Radway's Renovating Resolvent, aided in the more severe cases by the Ready Relief and Regulating Pills, the most repulsive leper, covered with running sores and ulcers, becomes sound, clean, and healthy.

Radway's Remedies are sold by Druggists, Merchants, and Storekeepers everywhere.

Price of Radway's Ready Relief—25 cents, 50 cents, and $1 per bottle. Radway's Regulating Pills—25 cents per box (coated with gum), 30 pills in each box. Radway's Renovating Resolvent—$1 per bottle.

WEDNESDAY, JUNE 26, 1861.

☞ We find the following article in the Louisville Courier of yesterday. We give the whole of it that we may not be charged with unfairness:

> LINCOLN LOGIC.—The authorities of the Confederate States have determined that their own people shall not export certain goods to the North, therefore it is right and proper that the Federal Administration should come here through its agents and prevent our people, the citizens of a neutral State, from shipping goods over our own roads and from our own cities!
>
> The people of the Confederate States are engaged in this war; they expect to bear whatever evils it brings upon them; and consequently it is not unreasonable that they should be deprived of privileges which they have heretofore enjoyed. If Tennesseeans are prevented from selling tobacco or anything else, they alone or principally suffer, and they bear it as one of the evils of the war forced upon them by the North.
>
> But the Confederate States have not sought to prevent the people of Kentucky from selling their productions to whomsoever will buy them.
>
> The people of Indiana and Ohio and Illinois are engaged in this war; they of course expect to bear its evils; and if they are prevented from sending their productions to a market, as they have been, they alone or principally suffer, and they cannot complain.
>
> But not content with cutting off the people of these States from all their resources and inflicting suffering on their people, and not respecting our neutrality, the Administration at Washington comes upon our soil and seeks to make our people bear the burdens of a conflict against which they have protested and to which they are not parties.
>
> The people of Kentucky have no right to complain of the Northern administration for preventing Ohio and Indiana and Illinois from shipping their products to Kentucky or elsewhere, nor of the administration of the Confederate States for preventing their shipments to Kentucky or elsewhere; but they have a right, and it is their duty, to protest against any attempt on the part of the Government at Washington or of the Government at Richmond to prevent us shipping goods from our own cities and over our own roads and rivers.

When an editor of real ability finds himself reduced, in the discussion of a great question, to the supposed necessity of talking after such a fashion as that, he certainly had better abandon the subject and retire at once from the field. Most certainly we never read anything more loose and absurd.

The editor of the Courier rests his whole doctrine upon the assumption that Kentucky, having declared her intention not to bear arms in this war, is not a State of the United States nor a State of the Confederate States, but an absolutely independent State, standing, sitting, or lying between the two. Now everybody, that has sense enough to keep out of fire and water, knows that the fact isn't so, and no one knows it better than the editor of the Courier. We are but just out of an election in which he and all his friends made their utmost exertions to elect their candidates to the Congress of the United States, a thing which they surely wouldn't have done if they had believed Kentucky to be no part of the United States. He has just been elected to an honorable military office, and he knows, that, before he can enter upon its duties, he must take an oath to support the Constitution of the United States, an oath that certainly he would not take if he considered Kentucky to be no part of the United States. If Kentucky is not a part of the United States, when did she cease to be so? In what month and on what day of the month did she secede? By what act did she erect herself into an independent sovereignty? Do not all the functions of the U. S. Government, judicial, postal, and those pertaining to pensions and the revenue, continue to be performed within her borders without being denounced in any quarter as usurpation or trespass? Will any one pretend that Gov. Magoffin can make treaties with foreign countries and appoint ministers to those countries? Why is it, if Kentucky is an independent republic or monarchy, that her people are taking no measures to exhibit her as such before the world?

The editor of the Courier knows—no one knows better—that the claims he sets up in behalf of Kentucky are absurd and ridiculous. He cannot have a boy in his office shallow enough to be imposed on by them. Kentucky is a State of the United States as much as she ever was. She has been, for reasons satisfactory to herself, so disobedient, or, if you will, so disloyal, as to claim for herself exemption from an armed participation in the war with the South and for her soil exemption from the tread of hostile hosts, and her claim has been recognized; but she acknowledges the obligation of the Constitution and laws of the United States as expounded by the Constitution of the United States. The position of the Courier that the Government of the Confederate States has a perfect right to prohibit the introduction of all articles from those States into Kentucky or any other part of the United States, but that the United States has no right to prevent the carrying of provisions from Kentucky and the rest of the United States into the Confederate States, is too preposterous to be entitled to even a moment's consideration. It is almost too silly to deserve to be exposed or even to be laughed at.

The Courier, by justifying the Southern Government or at any rate not complaining of that Government for the prohibition of freights from the South upon our railroad and our rivers and the payment of debts to our citizens, and at the same time denouncing the U. S. Government for the withholding of provisions from the South, shows itself a most perverse and miserable public teacher. It can't expect its teachings to be respected. It can't respect them itself.

☞ We don't think it very certain that those persons who have been so indefatigable, night and day, in hurrying off provisions to the Southern Confederacy are likely to make any great speculation out of their operations after all. They have had a good deal of difficulty in shipping the food, and they may have still more difficulty in getting their pay. The impression has generally prevailed that they shipped nothing without being paid for it at the time, but this appears to have been altogether a mistake.

Mr. Skiff of Covington is indicted for treason, the overt act being the shipment of provisions to the South. When he was arrested, his correspondence was seized, and from that it appears that he sent large quantities of bacon and butter to a distinguished citizen of Memphis, formerly of Kentucky, but that the distinguished citizen, acknowledging the consignments, very coolly declared that he wouldn't pay for them—at any rate not till after the war. So poor Skiff was swindled in one Confederacy and is likely to be hung in the other; and we presume his ghost won't be grateful to either.

As for the provisions that have gone off in such abundance upon our railroad, we learn that by far the larger portion has not been sold at all, but is piled up all about in Nashville, numerous clerks from our city being employed there to take care of it and make sales as opportunity offers. We suppose it can't be bought with Tennessee paper, and, as there is now an exceedingly stringent law in Tennessee prohibiting the payment of money to men living outside of the Southern Confederacy, we shouldn't be surprised to hear, any day, of the seizure of the piles of bacon as the property of alien enemies.

> The Journal is horrified at the thought of an oath being taken lightly and without a proper and serious application of its solemnity.
>
> *Courier.*

Yes, the Journal *is* horrified at that thought, and we wish the Courier had the grace to be horrified at it too.

☞ A Milwaukee mob has mobbed the banks of that city for discrediting the notes of certain other banks. There is nothing to indicate that the war had anything to do with it.

☞ The Federal Government won't let quinine go to the Southern people. As they won't shake with fear, old Abe means that they shall shake with ague.

☞ There is no truer maxim than that it is impossible to dispute with those who deny first principles. In listening to the tirades of the self-styled friends of Southern rights, it seems to us that they are insensible to some of the plainest moral truths upon which mankind have been entirely agreed, and that with them certain words which have been usually employed by men to designate crimes have either lost their meaning or else in their adulterated minds the crimes imported by these words have been turned into exalted virtues. With them the distinction between truth and falsehood, virtue and vice, seems to be obliterated, and the foundations of morality and rectitude are subverted.

Treason is treason, and, by its definition, consists in levying war against the United States or in adhering to their enemies. And whoever advocates the right of levying war against the United States or of adhering to their enemies is morally guilty of treason.

Robbery is robbery, and all are liable to the charge of robbery who forcibly take the goods or money of other persons. And whoever advocates the right of robbing the United States of its chattels, money, or other property, is morally guilty of robbery.

Perjury is perjury, and he is guilty of it who swears to support the Constitution of the United States and then does all in his power to overthrow the Constitution or the government created thereby.

Now we respectfully submit as a self-evident proposition to all disunionists, secessionists, or advocates of what are falsely called Southern rights, that certain things, which were perpetrated by the authorities and people of South Carolina, Georgia, Alabama, Florida, Texas, Louisiana, and Mississippi against the Government of the United States, are properly denominated treason, robbery, and perjury. And we aver that these odious offences were committed *prior as well as subsequent to the inauguration of President Lincoln* by the authorities and a vast number of people of the States just named. And we may add, that, since the inauguration of President Lincoln, similar crimes have been committed by the authorities and a large multitude of the people of Virginia and Tennessee.

Who does not know that from the first the Southern mind was to be instructed, the Southern heart fired, and the Cotton States precipitated into revolution?

Secession in some of the States was ordained by conventional resolutions, and in others by mere legislative enactments in utter violation of the Federal Constitution and their own State Constitutions.

Forts, arsenals, mints, revenue vessels, arms, and other public property belonging to the United States were violently seized prior to the inauguration of Lincoln in contemptuous defiance of the legal rights of the General Government and the equitable rights of all the loyal States. Violent threats were uttered to seize the common capital of the country, hallowed by the name of Washington, and, in pursuance of those threats, war is at this moment raging under the lead of Jeff Davis and Beauregard, with the evident design of capturing and appropriating some of the most cherished navigation, commercial and proprietary rights and interests which the State of Kentucky, in common with other States, has in the Government of this country. And yet there are Kentuckians whose moral perceptions are so blunted as utterly to ignore the felonious conduct of the conspirators and desperadoes who initiated and brought upon us the countless evils and horrors with which the nation is grieving and groaning.

And seeing, what is transparently patent to every unjaundiced eye, that the act of secession on the part of South Carolina was the first great, overt, and efficient cause of the war, we are inexpressibly amazed to find such men as our old friend Gov. Morehead so blinded and infatuated by some cause or other as to be willing to exclaim "that this war was brought on by Lincoln himself—that it was not precipitated by South Carolina."

Leaving entirely out of view the secession ordinance of South Carolina and the abolition by that State of the Federal jurisdiction and national authority within her limits, it is well known by every man, who has the slightest regard to dates and the truth of history, that South Carolina and other States had committed various acts of aggression and rebellion against the property and authority of the United States—finally culminating in the atrocious assault upon Fort Sumpter—before the Government of the United States did anything more than timidly look after its own property, or was even aroused from the most contemptible lethargy to a semi-consciousness of American nationality, or of even a respectable self-existence.

Let the blame for our unnumbered woes fall where it properly belongs. True it is that our beautiful constellation of States was occasionally jostled from orderly propriety by the naughty action of its Northerly members. But it is better to correct a deviation of stars by the regular laws of the heavenly bodies than to pluck from the solar planetarium the humblest member of the glorious constellation.

To the Editors of the Louisville Journal:

ELIZABETHTOWN, June 22, 1861.

DEAR SIRS: Nearly every day there are cases of guns brought in from the Jo Daviess campground and shipped to Nashville. The guns, I understand, are taken off at the encampment and brought into town by wagons. One case came in this morning, and the countryman said he was told the case was to be sent to Louisville, but it is marked Harris, Edwards, & Co., Nashville, Tenn., and to be shipped to Tennessee.

Dr. L. P. Blackburn, of Natchez, Miss., as his name is registered on the hotel register at Hill's Hotel, was here a few days ago, and took off several cases—destination home. The Doctor stated here he was the agent of Kentucky to the South to buy guns, &c.

If any one of our readers can explain the matters mentioned in the letter above, we should be glad to hear the explanation. It is certain that large quantities of guns have been going and are constantly going from the encampment of the State Guards at Muldraugh's Hill to Nashville—going by stealth. What guns they are, when, whence, by whom, and for what purpose they were taken to Muldraugh's Hill, and by what authority they are shipped to Tennessee, and why such mystery is observed, we are not informed, but should much like to be.

Dr. Blackburn was, it seems, at Elizabethtown the other day, stating that he was the agent of Kentucky for obtaining guns in the South, and yet he took off with him several cases of guns *from* Kentucky *to* the South. There are suspicious movements in all directions, and the friends of the public safety cannot be too vigilant. As for this transportation of arms to the South, every good citizen should feel himself bound by every consideration of loyalty to his country to do what he can to arrest it instantly. It is treason, and we hope that the next overt act of the kind will be punished as treason. Let us know whether the laws of the land are dead among us or not. If they are, we might as well take our chances for dying too. Life, where treason runs riot, is not worth living.

☞ According to the census of 1850, the whole number of native Kentuckians in the ten seceding States was 27,772, while in the other States the number was not less than 219,871—nearly six times as many. Then must Kentuckians join the Confederate States in this war, as the disunion organs say they must, just to fight for their friends and brethren against aliens?

If any one thinks that we are mistaken as to the facts, let him examine the census for himself.

> It is said the Northern Government is sending the negroes captured in Virginia to Cuba, where they are sold to pay the expenses of the war. Such conduct is in keeping with the past lives—not the professions—of the abolitionists.
>
> *Augusta (Ga.) Chronicle.*

This is another of the false stories which have obtained circulation at the extreme South to prejudice the people there. Not a negro has been captured from his owner, since the Federal forces crossed into Virginia, but in many instances runaways have been restored to their masters, or held to be given up when called for.

☞ The Memphis banks have just loaned their own notes, amounting nominally to $195,000, for secession purposes. Soldiers and others will of course be compelled for the present to treat the notes as money, but two years hence the whole mass of the miserable trash will not pay for a supper and a night's lodging.

☞ Rotten stomachs are never "water-rotted."

☞ The Charleston Mercury cannot believe that England and France have prohibited the bringing of Confederate privateer prizes into their ports, for by that act it thinks they declare that they are not neutral or friendly, but hostile nations towards the Confederate States. But if the trans-Atlantic advices are true, the Mercury thinks the Confederate Commissioners ought immediately to drop all intercourse with the Governments of France and England, and that the Confederate States should carry out this policy in their commercial relations. In other words, they should prohibit the exportation of cotton or tobacco to either of these nations, for if England and France can do without the friendship of the Confederate States, it thinks the Confederates can do without them. The Cotton States will never need a standard of weights and measures, while their great staples grow, for every measure of policy is meted out by the fibre of cotton or the stem of tobacco, and they stretch worse than a yardstick in the hands of a shrewd purchaser when he measures his own goods. The Mercury therefore flies off the handle, precipitates, rebels, and is for accepting the quasi hostility which France and England choose to extend and keeping all the tobacco and cotton at home, as it does not believe that Europe can live without the agricultural products of the South. It says:

> Possibly England and France, as well as the United States, have yet something to learn of our power and our statesmanship. The Confederate States can make themselves felt in every homestead in France and England; and we mistake the character of the statesmen who rule our counsels if they do not use their power if necessary. They need not beg—they can *command* the friendship of the great nations of the world.

We sometimes think that the Cotton States have a little "oversized their pile" when bragging of the influences of their cotton and tobacco on the destinies and happiness of the world. We fear that they have injured most materially the prospects of their cotton monopoly on account of the great exertions which are now making to obtain adequate supplies from other quarters, while there is now enough on the market for consumption until next May, so that two crops can nearly be brought forward before the looms at Manchester and elsewhere will be brought to a stand still. As for the supply of tobacco, the smoking, chewing, and snuffing nations of the world are not at the mercy of the Confederate States, for it can be grown anywhere throughout the temperate zones and in portions of the torrid. The Indian can puff his calumet, the Oriental his hookah, the Turk his meerschaum, the Havanese his regalia, and uncle Tom and aunt Dinah their clay pipes, without obtaining a license from Jeff Davis or begging the permission of the Charleston Mercury. Some other means than holding back their staples must be devised to relieve the Confederates from their dilemma. We fear they will not take our advice, but we will give it gratuitously, casting our bread upon the waters in the hope that it will fruitfully come back to us. Let them return to their broken allegiance; stop their longings after kings and a monarchy; cultivate the arts of peace; emulate the example of Kentucky; reawaken a reverence for the precepts of Washington, instead of hankering to possess our Capital which bears his name; respect the teachings of our nation's sages; send into exile all the rash leaders and perturbed spirits who, for thirty years, have been sowing treason without reaping their merited crop of hemp; pass resolutions to send delegates to a national convention under the provisions of the Constitution, which every one is bound to support; and then, as if by magic, the baleful influences which now hang over their cotton bales and the blockheads who are now rendering worthless their tobacco hogsheads will be dispersed, while the pure white of their cotton and the graceful blue curls of their tobacco will be seen again in every country, and bring back the rich harvest of their agricultural industry. The world is very large, as the Charleston Mercury must geographically know, but its length and breadth cannot be properly estimated if cotton is placed so near the eye as to obstruct the vision; it shuts out the efforts of the European Supply Associations to obtain new sources of supply from Africa, Australia, South America, the West Indies, and other countries, and "to assist in the work of creating that healthy competition among many markets, which alone can obviate the evils arising from the present position of dependence upon one main source of supply."

This subject has grown under our pen, beyond our original intention, but it is of vast importance to the United States, and as we are hopeful that all the American brethren will yet again "dwell together in unity," we shall take an early opportunity to refer to the exertions which are now making abroad to break down our monopoly supply of cotton and to show that the Gulf States cannot expect to enjoy their almost exclusive market if they continue to embarrass the European trade; on the contrary, they will stimulate British capitalists in their determination to be no longer dependent upon one source of supply for raw cotton. United or separated from our sister States on the Gulf of Mexico, we shall never forget our consanguinity, and it will therefore be our duty to warn them of the perils to which they subject themselves, when they are led astray by their vainglorious ideas that the world is at the footstool of King Cotton, and that all the nations must humbly pay tribute to him.

THE OATH TAKEN BY LINCOLN'S ARMY. The following is a copy of the oath which Lincoln causes to be administered to all the officers in his army and navy—an oath to obey and support, not the Constitution, but the President himself:

> I, ————, do solemnly swear, or affirm (as the case may be), that I will bear true allegiance to the United States of America, and I will serve them honestly and faithfully, without any mental reservation, against all their enemies or opposers whatsoever; *that I will serve and obey the orders of the President of the United States*, and the orders of the officers appointed over me, according to the rules and articles for the government of the navy [and army] of the United States.
>
> Sworn to and subscribed before me, at ———, this ——— day of ——, 18—.
>
> ——— ———
> Justice of the Peace.

We copy the preceding from the Louisville Courier of yesterday. We should probably call it a trick, if we didn't know the editor of the Courier to be above the practising of tricks. His language necessarily conveys the idea that President Lincoln has got up, for especial purposes, a new form of oath to be administered to the officers of the army and navy. But we presume he cannot be ignorant that the fact is otherwise. He unquestionably knows that the oath which he quotes is the oath that has been administered to officers of the army and navy of the United States from the beginning of the Government.

What means then this unseemly grumbling? Would the secession organs have Mr. Lincoln assume the responsibility of changing or abolishing oaths of office? How can it be possible to attach the least importance to the complaints and objurgations of organs that resort to such means of misleading and exasperating the public mind?

☞ Prof. Lowe, as we learn from Washington, goes up every day in his balloon to make reports of the situation of the Confederates for the information of Gen. Scott. And it seems that the Confederates, profiting by the example, have employed another Professor to go up daily in another balloon for the information of Gen. Beauregard. We shall probably hear next that the rival balloons have been mounted with guns and had an engagement in mid air. A ball passing through one of them would probably let out as much gas as if it went through the head of Gov. Wise.

THE FIRST DISTRICT.—A letter from Morganfield, Union county, informs us that the mandate of the Mayfield Convention was carried out there to some extent. Upon going to the polls voters were saluted with the question: "Are you for the North or for the South?" Few if any of the Union men answered this question, and a general opinion prevailed that it was an insult to ask it, as they were opposed to all sectional issues and were for the whole country, knowing no North, South, East, or West.

☞ It does seem to us a very scandalous and a very foolish thing, that so many incompetent men, mere lawyers and politicians, who have not one grain of military knowledge, are appointed to important positions in the U. S. army, whilst the old veteran, General Wool, whose whole life has been spent in the successful service of his country in the field, is required to remain aloof from the conflict. Would *he* ever have made such wretched blunders as were made at Big Bethel and Vienna?

☞ It is unfortunate that the Southern telegraph has been interrupted so that the Confederate press cannot obtain news from the seat of war. The Augusta Chronicle, in the absence of authentic information, settles the fate of Washington with ease. It proposes to concentrate thirty-five thousand troops at Harper's Ferry and twenty-five thousand at Manassas Junction, and leaving fifteen thousand at the former advance simultaneously from Manassas on Alexandria and Arlington Heights and thus on Washington, and from the Ferry with twenty thousand men to the Relay House. A rising in Baltimore and all Maryland, the Chronicle thinks, would make the Confederate footing sure in that State, and Washington could be captured. It asks impatiently, "Why not advance?" and evidently shows that Davis made a mistake in appointing Beauregard to the chief command when the Chronicle editor is unemployed, for, says he, "the Capital in our hands and all the advance Lincolnites cut off, the war might end, or with fifty thousand soldiers Jeff Davis could march on Philadelphia against a wild rabble of millions, unarmed, unorganized, and without leaders. The Federal troops at Chambersburg, with forty thousand from the West, might attack Harper's Ferry if they chose, but it would be held. The best Federal troops are moved forward from Washington as the new recruits arrive there, and north and east of Baltimore there are neither drilled troops nor generals."

There is either gross ignorance or wilful deception in all this. Harper's Ferry, regarded as a point of such impregnable strength, is deserted; the whole line of the Baltimore and Ohio railroad and of the Potomac river is unobstructed; there is not a foot of ground possessed by the Confederates on which it is possible to outflank Washington; and an advance towards the North would be met by disciplined reserves under experienced officers. The whole Southern press is engaged with the Augusta Chronicle in the effort to misrepesent the position of the Northern army and to lead the young and gallant spirits of the South to enlist in this pernicious war under the impression that the contest will be short, vigorous, and successful.

> KENTUCKY.—We think "old Kentuck" will "come" before long. Her famous plan of neutrality does not work well. The telegraph advises us that her soil has been invaded. The Kentuckians will not endure Lincoln's treatment much longer. He is beginning to crowd them a little too close. They will wake up like a volcano, and be altogether with us soon.
>
> *Mobile Advertiser.*

This is the way the Cotton States look upon the position of Kentucky, but they need not be alarmed. We can take care of ourselves, and that without "going" to the Southern Confederacy. Our plan of neutrality *does* work well. We are the only State owning slaves that is not rent by civil war and filled with the sulphurous smoke of battle. "Lincoln's treatment" is far preferable to that which the Confederate States extend to us. The former, representing the legal government of the United States, says we must not give aid and comfort to their enemies by shipping provisions and munitions of war to them. But the Jeff Davis government forbids us to receive a single pound of cotton or plug of tobacco, has closed the navigation of the Mississippi to commerce, seized our steamboats, and offered indignities to our citizens. There is nothing in the entertainment to which the Cotton States invite us which can induce us to accept the invitation. We shall fare better on our home fare, and not bid farewell to substantial peace in exchange for the doubtful honor and glory of fighting the battles of Jeff Davis on the soil of Virginia and our own soil. The Mobile Advertiser may rest assured that there is no crater about to burst forth in our State, unless Governor Magoffin forfeits all his pledges and turns the veriest traitor to the true interests of Kentucky.

☞ The Atlanta (Geo.) Intelligencer has heard it suggested that it is the intention of the Confederate Congressmen and Cabinet officers to pay into the common treasury the amount of their salaries during the war, and that the principal office holders, who can afford it, intend to receive only half of their salaries, paying the other half for the benefit of the volunteers. Praiseworthy and patriotic as the Intelligencer considers this, it is not yet satisfied, but suggests that every public servant in the employ of the Confederate Government should accept no more pay than is given to the privates in the volunteer regiments. That will do, with a proviso, which is that they subsist on camp rations during the continuance of the war. If soldier's pay and soldier's fare allotted to the political leaders who have thus far worked the game of secession do not bring them to a sober preparation for overtures of pacification, nothing else can inflence them.

☞ The Richmond Whig is particularly delighted with the Constitution of the Confederate States because it contains wholesome qualifications of the power of removal from office by the Executive, restricting its exercise to cases where services are unnecessary, of dishonesty, incapacity, inefficiency, misconduct, or neglect of duty, and when so removed from office the removal shall be reported to the Senate with the reasons therefor. Thus the Whig thinks the system of rewards and punishments will be extirpated at a blow; the vile weed which would have poisoned all the flowers of Eden itself is rooted up and cast into the fire. When we reflect that this pernicious weed was nurtured in our system by the very men now most prominent in the cause of secession, and that they have virtually had control of the advisory power of appointments for a great number of years, we cannot help being amused at the zeal of the apostate Whig.

☞ The Fourth of July is to be kept in Georgia by the cotton planters, who will meet in convention at Macon, and then and there proclaim their eternal independence of Northern financial and commercial domination. It is urged that this will strike a long premeditated blow to destroy New York, and that every dollar subscribed by the Southern planters in Confederate bonds is a preliminary step in the establishment of a new financial association, entirely controlled by the planters of America, and one which will yet govern the world. We shall have cotton as a legal tender next, if not for a circulating medium.

☞ Col. Thomas C. Hindman, late member of Congress from Arkansas, complains bitterly of his State for not supplying his regiment with blankets and shoes. He says that he wrote to the Military Board at Little Rock, "I requested you to allow me to apply to the benefit of my men the proceeds of the sugar now in store, *which I seized from Cincinnati steamboats*," but that his request was not granted. It certainly is a hard case if an Arkansas thief cannot be allowed to use as he pleases his own personal stealings.

☞ Our neighbor of the Courier managed to write a leading editorial article yesterday upon "Neutrals and Privateering" without stating or even intimating to his readers the interesting and important fact that Great Britain has resolved not to permit the privateers of the Confederate States to take any prizes into her ports. He can talk more and tell less than any other intelligent gentleman we have the fortune or misfortune to be acquainted with.

☞ The Augusta (Geo.) Chronicle, calling attention to the vote to be taken next Tuesday on the ratification of the new State Constitution, says it has been but little discussed by the press or people, which it regards as an evidence that "the people really care very little about the new Constitution, thinking they have done well enough under the old one." If such is the opinion of the Georgians, why not let "well enough" alone?

☞ The Hon. Hendrick B. Wright, who has been elected to Congress from the Twelfth District of Pennsylvania to succeed George W. Scranton, deceased, was a Douglas Democrat at the Presidential election, but is now a Union man. Mr. Wright has heretofore served in Congress one term and he presided over the National Democratic Convention at Baltimore in 1844 which nominated James K. Polk for the Presidency.

☞ Several of the editors in the Confederate States are fond of calling Mr. Lincoln "the Gorilla." The Gorilla, as travellers tell us, is an animal that sits upon the branch of a tree, and, when a man is passing under, seizes him around the throat, draws him up, and holds him suspended in the air till he is choked. Have our friends of the secession press some suspicion that Old Abe may haul them up to the limb of a tree?

OLYMPIAN SPRINGS
(FORMERLY MUD LICK SPRINGS).

THIS DELIGHTFUL PLACE OF SUMMER RESORT is now open for the reception of visitors the scenery of which is unsurpassed for its beauty; and the location of which is entirely exempt from miasmatic influences. In point of variety and efficacy the waters are unequaled by any similar place of resort, among which may be enumerated the White Sulphur, the Black Sulphur, the Saline Spring, the two Chalybeates containing the Sulphate and Carbonate of Iron, the Epsom Chalybeate, the Salt Water Spring, etc.; from which it will be seen that any disease which is amenable to the influence of mineral waters can be successfully treated at this watering-place. There is a resident physician at the Springs who will advise invalids in regard to the use of the water.

The cottages, main buildings, etc., are pleasantly situated, and the table is equal to the best. The bar is furnished with the choicest liquors, and *an abundance of ice has been secured*. There is a post-office at the Springs, and mails are regularly received.

Olympian Springs are situated in Bath county, Ky., and are accessible from Lexington or Paris, by stage, by way of Mt. Sterling.

MADAME ISABEL SNELL,
DOCTRESS & ASTROLOGIST,
st., second door from Grayson,

WOULD respectfully inform the citizens of Louisville that she is able to tell anything they have in their mind, and can help people out of their trouble, no matter what it is. She was born with a secret that enables her to surpass any one else in TELLING FORTUNES. She can also find out through her secret all circumstances of sickness, and can tell what will cure, as there are roots growing for every disease in the world.

Madame I. S. is the only one that can make DR. HUFLAND'S LIFE ESSENCE pure. This mixture is good for all diseases, and can only be bought in her office, No. 509 Eighth street, second door from Grayson.

Every person that is depressed and troubled about War should call on her, as she is the only one that inherited the secret from *la Norma*, the great Fortune-Teller that assisted Napoleon of France in all his undertakings, and made him successful in all his battles. She wagers $1,000 that no one can surpass her.

Please call and see her, and you will be relieved. Those who are too poor, *if for the Union*, can come without money; and those who don't believe, call at 12 o'clock at night and she will make them believe.

HOMES FOR THE INDUSTRIOUS
IN THE
GARDEN STATE OF THE WEST.

THE ILLINOIS CENTRAL RAILROAD CO., HAVE FOR SALE
1,200,000 ACRES OF RICH FARMING LANDS,
IN TRACTS OF FORTY ACRES AND UPWARD,
ON LONG CREDIT AND AT LOW PRICES.

MECHANICS, FARMERS & WORKING MEN.

THE attention of the enterprising and industrious portion of the community is directed to the following statements and liberal inducements offered them by the

ILLINOIS CENTRAL RAILROAD COMPANY, which, as they will perceive, will enable them, by proper energy, perseverance and industry, to provide comfortable homes for themselves and families, with comparatively speaking, very little capital.

LANDS OF ILLINOIS.

No State in the Valley of the Mississippi offers so great an inducement to the settler as the State of Illinois. There is no portion of the world where all the conditions of climate and soil so admirably combine to produce those two great staples, CORN and WHEAT, as the Prairies of Illinois.

RICH ROLLING PRAIRIE LANDS.

The deep rich loam of the prairies is cultivated with such wonderful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people.

EASTERN AND SOUTHERN MARKETS.

These lands are contiguous to a railroad 700 miles in length, which connects with other roads and navigable lakes and rivers, thus affording an unbroken communication with the Eastern and Southern markets.

APPLICATION OF CAPITAL.

Thus far, capital and labor have been applied to developing the soil; the great resources of the State in coal and iron are almost untouched. The invariable rule that the mechanic arts flourish best where food and fuel are cheapest, will follow at an early day in Illinois, and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at least five hundred thousand people will be engaged in the State of Illinois in various manufacturing employments.

RAILROAD SYSTEM OF ILLINOIS.

Over $100,000,000 of private capital have been expended on the railroad system of Illinois. Inasmuch as part of the income from several of these works, with a valuable public fund in lands, go to diminish the State expenses; the TAXES ARE LIGHT, and must consequently every day decrease.

THE STATE DEBT.

The State debt is only $10,105,398 14, and within the last three years has been reduced $2,959,746 80, and we may reasonably expect that in ten years it will become extinct.

PRESENT POPULATION.

The State is rapidly filling up with population; 868,025 persons having been added since 1850, making the present population 1,723,663, a ratio of 102 per cent. in ten years.

AGRICULTURAL PRODUCTS.

The Agricultural Products of Illinois are greater than those of any other State. The products sent out during the past year exceeded 1,500,000 tons. The wheat crop of 1860 approaches 35,000,000 bushels, while the corn crop yields not less than 140,000,000 bushels.

FERTILITY OF THE SOIL.

Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being composed of a deep rich loam, the fertility of which is unsurpassed by any on the globe.

TO ACTUAL CULTIVATORS.

Since 1854 the Company have sold 1,300,000 acres. They sell only to actual cultivators, and every contract contains an agreement to cultivate. The road has been constructed through these lands at an expense of $30,000,000. In 1850 the population of forty-nine counties, through which it passes, was only 335,598 since which 479,293 have been added; making the whole population 814,891, a gain of 143 per cent.

EVIDENCES OF PROSPERITY.

As an evidence of the thrift of the people, it may be stated that 600,000 tons of freight, including 8,600,000 bushels of grain, and 250,000 barrels of flour were forwarded over the line last year.

EDUCATION.

Mechanics and workingmen will find the free school system encouraged by the State and endowed with a large revenue for the support of schools. Their children can live in sight of the church and schoolhouses, and grow up with the prosperity of the leading State in the Great Western Empire.

PRICES AND TERMS OF PAYMENT.

The prices of these lands vary from $6 to $25 per acre, according to location, quality, &c. First class farming lands sell for about $10 to $12 per acre; and the relative expense of subduing prairie land as compared with wood land is in the ratio of 1 to 10 in favor of the former. The terms of sale for the bulk of these lands will be

ONE YEAR'S INTEREST IN ADVANCE,

at six per cent per annum, and six interest notes at six per cent., payable respectively in one, two, three, four, five and six years from date of sale; and four notes for principal, payable in four, five, six and seven years from date of sale; the contract stipulating that one-tenth of the tract purchased shall be fenced and cultivated, each and every year, for five years from date of sale, so that at the end of five years one-half shall be fenced and under cultivation.

TWENTY PER CENT. WILL BE DEDUCTED from the valuation for cash, except the same should be at six dollars per acre, when the cash price will be five dollars.

Pamphlets descriptive of the lands, soil, climate, productions, prices, and terms of payment, can be had on application to

☞ Read the following from the well known Captain of the Steamer Fulton:

NEW ORLEANS, 3d Oct., 1859.

DR. J. C. AYER, Lowell:

SIR: I am urged by my wife to report to you a cure your Sarsaparilla has made in our family, and, as it is the only way in which we can make you any acknowledgment of our gratification, I will proceed to state: My little son, eleven years old, has had *Scrofula* sores on his ears, neck, and arms for five years. They were much of the time very distressing, and we feared they would kill him. At first a swelling would appear, then it would break and make a running sore, which would not heal. They became very loathsome and often painful. They stopped his growth and seemed to undermine his health, so that he became feeble and sickly. We tried physicians and medicines, but they did no good. A clergyman in our neighborhood, who had seen some remarkable cures by your Cherry Pectoral, advised us to try your Sarsaparilla, and we did. The smallest sores showed symptoms of healing in about two weeks; in two more they had healed, and in two months the child was as well as any boy. He now enjoys perfect health, with no remnant of the disorder about him that we can discover. If you, sir, are a parent, you may well believe that we shall not soon forget you.

Very truly your humble servant,
JNO. W. BATES.

LOUISVILLE
Private Medical Dispensary,
Conducted on the European Plan,
For the Cure of all Private Diseases.

YOUTH & MANHOOD

Those afflicted with any disease of a private nature, who would escape the imposition of ignorant quacks, should not fail to read "DR. GATES'S PRIVATE MEDICAL TREATISE ON SEXUAL DISEASES," a new and revised edition of one hundred pages, handsomely illustrated with plates and engravings representing the genital organs of both sexes in a state of health and disease. Treating on all private diseases incident to both sexes, such as general nervous and sexual debility, solitary habits, seminal weakness, impotence, &c. Price by mail TEN CENTS. DR. GATES has for many years devoted his whole time and attention to the treatment of diseases of a private nature in all their varied and complicated forms. His success in those long standing and difficult cases, such as were formerly considered incurable, is sufficient to commend him to the afflicted as worthy of the extensive practice which he has heretofore received. And he pledges to spare neither time nor expense to render himself proficient in the profession of his adoption. Those who believe they have contracted disease should make immediate application, as by his recent discoveries, he is enabled to cure all cases in a few days.

YOUNG, MIDDLE-AGED, and OLD MEN, who by indulging in solitary habits or excessive indulgence of their passions, have produced SEMINAL WEAKNESS or an ability in advance of their years, may be restored to their former health and vigor by making immediate application.

TO THE LADIES.—Dr. Gates is agent for M. LA CROIX'S FRENCH PREVENTIVE POWDERS. By their use, those who, from any cause, wish to limit the number of their offspring, can do so without danger to health or constitution. Price by mail, $3 and two postage stamps.

Also, for MADAME CAPRAU'S FEMALE MONTHLY PILLS—a safe and effectual remedy for Irregularities, Obstructions, &c. Price by mail, $1 and one postage stamp.

CAUTION.—These pills should not be taken during pregnancy, as they are sure to produce miscarriage.

To persons at a distance who wish to be cured at home we will, on receipt of a brief statement of their case, send a list of such questions as we wish one to answer in person to their interview; and, on receipt of the list filled out, we will forward medicines particularly adapted to the case, free from damage or observation, to any part of the country with full directions for use.

Consultations may be had from 8 A. M. to 9 P. M.; on Sunday from 9 to 11 A. M.; at his office, northeast corner of Third and Market streets, up stairs—private entrance on Third street—Louisville, Ky.

☞ The above business will hereafter be conducted under the name and style of DR. H. G. MILLER & CO., to whom all orders and letters should be addressed. Dr. GATES can, as heretofore, be consulted personally, during business hours, on all diseases on which his book treats.

☞ Secrecy inviolable. Don't forget the name and place. All letters should be addressed to

☞We have received from a distinguished friend of Mr. Crittenden's at Frankfort the following correction of one of the ten thousand idle but mischievous rumors of the telegraph:

FRANKFORT, June 24, 1861.

GENTLEMEN: The statement under the telegraphic head of to-day in the papers, that Mr. Crittenden would offer his compromise, and, if not accepted, that he would advise Kentucky to secede, is without any authority whatever. It exists only in the imagination of the newspaper reporters. Please correct it in the Journal. No person had authority to make any such statement.

☞At a preliminary meeting of the unemployed mechanics of the city of Louisville, Geo. A. Houghton was elected president.

On motion, a committee of five were appointed to call a meeting to suggest some method of relief to the destitute and suffering mechanics.

J. R. Pickering, T. E. C. Brinly, Wm. Stinett, John Fisher, Geo. M. Johnson, and J. T. Davis, were appointed the committee under the resolution, and have called the meeting at the Courthouse, on Wednesday evening, at half-past seven o'clock. Let there be a full meeting.

TRIAL OF A NEW ALBANY MANUFACTURED RIFLED CANNON.—We learn from the New Albany Ledger that Stephen Stucky has had a trial of the rifled cannon which he has been making at the Phœnix Foundry, and it proved an entire success. Two shots were fired with two pounds of powder, and three with a pound and a half, which is sufficient to test the metal. Only one of the balls could be found, the remainder having gone over the knob on a visit to Mooresville. There is no defect about the piece but what can be remedied, and it is the intention of the inventor to have it permanently mounted and thoroughly tested during the present week.

THE GUN-BOAT A. O. TYLER.—This craft arrived yesterday in tow of the steamer Champion, and passed through the canal on her way to Cairo. She will be followed by two or three others to-day. The Tyler is pierced for ten or twelve guns, and has a formidable appearance. Her hull is enclosed in gutta-percha, with an iron covering, capable of resisting the heaviest balls. She will receive her guns and outfit at Cairo.

DEATH OF MR. STEPHENS.—It will be seen from our despatches that the Hon. Alexander H. Stephens, Vice President of the Southern Confederacy, is dead. He was an abler man and a greater statesman than he has left behind him in the Confederate States. He resisted secession until he saw that he could not resist it successfully. Well had it been for his fame if he had not yielded even then.

ELECTION RETURNS.—The returns from the First District are too meagre to form any positive idea whether Judge Trimble has beaten Mr. Burnett. In all the other districts the Union candidates have succeeded, and we need not repeat figures until we can give them from official sources. The State has been carried in the aggregate by at least sixty thousand majority.

TOBACCO FOR NEW YORK.—The New Albany Ledger says that a shipment of about 800 boxes of Virginia tobacco was made over the Louisville, New Albany, and Chicago Railroad yesterday for New York. The tobacco was shipped from Richmond, Va., to Atlanta, Ga., thence over the Chattanooga and Nashville roads to Louisville. The owner of the tobacco has been nearly three months getting it to this point.

HIGH PRICED TOBACCO.—A hogshead of tobacco was sold at the Ninth-street Warehouse yesterday at $16 ⅌ hundred lbs. It was grown by Mr. Thos. Rives, of the Jackson Purchase, and was purchased by Messrs. Mussellman & Son.

☞The entertainment at Mozart Hall last evening for the benefit of Mr. Harry Watson was eminently successful, as Mr. and Mrs. Dickson and Mr. Edwards contributed to the evening's enjoyment.

☞The pump on the southeast corner of Fifth and Market street is out of order and should be attended to at once for the convenience of the citizens in that vicinity.

☞The Citizen Guards of this city have been invited to attend the military encampment at Big Spring, Woodford county, which will be inaugurated the 1st of July.

☞A large party of ladies and gentlemen formed a pic-nic party yesterday and visited the vicinity of Utica, Indiana, on board the steamer Charlie Miller.

DROWNED.—A little daughter of Mr. Asa Lawnsberry was drowned at Utica, Ind., yesterday.

FIVE NEW PLANETS.—The discovery of Asteroid No. 66 (Maia), on the 10th of April last, at Harvard College Observatory, has already been announced. On April 17th No. 67 was discovered at Madras, India, by Mr. W. R. Payson, lately appointed director of that observatory. It was then of the 11th magnitude, and has been named Asia. On April 29 No. 68 was first seen by Luther, at Bilk, Germany, and named Lato, the Greek of Latona; on the same day No. 59 was discovered at Milan, by Sr. Schiaparelli, and on May 5, No. 70, at Paris, by Goldschmidt, and named Hesperia. Thus has the existence of five more asteroids been made known in less than four weeks.

BLOCKADE OF THE WABASH.—It seems that the blockade at the mouth of the Wabash river is to be rigidly enforced. On Friday afternoon a portion of Capt. Klauss's Artillery Company, taking with them one gun, and a company from the Twelfth Regiment, were placed on the steamer W. V. Gillum, at Evansville, and started down the river. Their destination is the mouth of the Wabash to intercept some flatboats loaded with produce, and said to be on their way out of that stream.

LEATHER SEIZED.—A seizure of five boxes and five rolls of leather was made by the Surveyor of Customs at the railroad depot at Evansville on the 20th inst., valued at about $800. This leather was sent to Evansville from St. Louis to be shipped to Paducah, Ky. It was sent by that route to avoid the detention and trouble which might arise by sending it by boat past Cairo, which would have been the most direct and cheapest way.

☞Writers for the press refer to Manassas Gap as the place of concentration of Confederate troops. Manassas Railroad Junction with the Orange road is the camp, and is twenty-seven miles from Alexandria. The Gap is in the Blue Ridge Mountain, sixty miles from the Junction, and about twenty-two from Winchester, in the Valley of Virginia.

THE ARKANSAS BORDER.—The Memphis Avalanche learns that an express arrived at Madison, Arkansas, on Sunday, for the information of the Governor, stating that 2,000 Federal troops were about to take Bloomfield, near the border. The citizens of Chalk Bluff call upon the Governor for aid to repel the invaders.

A MILITARY MOVEMENT.—Orders have been received at the Newport (Ky.) Barracks by the Quartermaster to prepare for the reception of 3,000 U. S. troops in the course of a week. Two regiments of infantry and one of cavalry are coming.

ESCAPE OF PRISONERS.—John P. Walker, Albert Hartt, Michael Doyle, and Michael Oats, four prisoners, escaped from the Covington, Ky., jail on Monday. Oats jumped into the river and was drowned and Walker and Hartt were retaken.

☞Dr. Thomas W. Owings has been nominated for the Legislature by the Union men of Meade county, who likewise recommended Judge W. Alexander to the counties of Hardin and Bullitt for the Senate.

RIVER AND STEAMBOAT NEWS.

The river remains about stationary at this point, with three feet eight inches water in the canal last evening. The weather yesterday was warm and cloudy.

At Pittsburg at noon the river was falling, with two feet nine inches water in the channel.

The river at St. Louis rose nine inches in the 48 hours ending yesterday morning. The Missouri is high and swelling slightly. The Illinois is falling steadily and nearly at a low stage, and the Upper Mississippi is getting down fast.

The Champion passed down yesterday with the gun-boat A. O. Tyler in tow.

The elegant steamer Superior is the regular mail and passenger packet for Cincinnati at noon to-day.

Capt. Hildreth and the other officers of the Maj. Anderson are delighted with their new boat. She can outrun everything on the route, and is in every respect the most admirable boat for the trade that the mail company have ever constructed.

The Lexington and Connestoga, Government gun-boats, will arrive from above to day on their way to Cairo. They are similar in their construction to the A. O. Tyler.

The steamer Moses McLellan has been chartered by Mr. H. C. Lord to run in connection with the Indianapolis & Cincinnati Short Line Railroad, until the railway bridge which spans the Big Miami is repaired. The McClellan left Cincinnati yesterday morning at five o'clock, in charge of Capt. Wm. B. Phillips, late of the Government transport steamers N. W. Thomas and Stephen Decatur.

☞Mr. Pennington, the popular freight agent of the Grand Trunk Railroad, is at the Louisville Hotel.

POLICE PROCEEDINGS—*Tuesday, June 25.*—Margaret Falkner vs. Louis Fillmore, peace warrant. Dismissed.

William Casey, drunk and disorderly conduct. Bail in $200 for 3 months.

Benj. Lowry, draunk and disorderly conduct. Bail in $100 for 1 month.

Solomon Hastings, suspected felon. Bail in $200 for 3 months.

Jos. Hoover, stealing rope, &c., from James Saltmarsho. Continued until to-morrow.

Pat. Kieley, killing John Quigley. Continued till to-morrow.

EXCITEMENT IN EVANSVILLE.—We learn from the Evansville Journal of Monday that that city was thrown into a high state of excitement on Sunday afternoon, by the arrival of a messenger with the announcement that six hundred secessionists were on their way to attack the town. A thousand rumors were afloat during the afternoon and night, and it was quite impossible to ascertain what was really the cause of the alarm. As near as the Journal could find out, the messenger brought a note from the Sheriff of Warrick county, addressed to Col. Wallace, announcing that two boats had been seen with some six hundred troops on board. That their destination was unknown but advising the Colonel to be on his guard. A consultation with the Mayor resulted in a "call to arms." The various companies of the home guards were soon on the street, armed, and full of fight. The companies at Camp Wallace were mustered into the city; an artillery squad, with one gun, was planted on the Lue Eaves and despatched up the river to "make an observation"; messengers were sent out, post haste, to act as scouts; and the whole city was in a blaze of excitement. The Journal thinks the alarm unnecessary, and that it grew out of a misapprehension.

GENERAL LYON.—Gen. Nathaniel Lyon, who makes such a stirring time in Missouri, attracts so much attention that our readers may want to know something about him. He is a native of New Haven, Connecticut, of an old and respectable family. He entered the United States Military Academy, June, 1837, and must, therefore, be about forty years of age. He graduated the eleventh in a class of fifty-two, which is a very good standing. Major Zaloni B. Tower, of Massachusetts (now at Fort Pickens), was the head of the class, and Capt. H. G. Wright, of Connecticut, the second. Lyon was promoted Second Lieutenant, July 1, 1841, and First Lieutenant in February, 1847. He was brevetted Captain, August 20th, 1847, "for gallant and meritorious conduct in the battles of Contreras and Cherubusco." He was wounded at the Belen Gate of Mexico, September 13, 1847. Since then he has been employed in the ordinary service of the army. His prompt, sagacious, and energetic conduct in Missouri, proves him to be an able, as well as true soldier.

GEN. WOOL.—We should like to know, says the Albany Knickerbocker, from some red tape friend at Washington, why General Wool is not called upon to do active service? General Wool is as brave as a lion, and is, without question, one of the best posted generals of the age. He has fifty years of experience, and has always whipped in every battle he ever participated in. General Wool knows all the ropes. He knows when to strike and when to manage. He is truly a great man, and should not be permitted to wait another day in undeserved indolence. Wool is a true patriot, and willing and anxious to fight for the republic. He is a man of great resources and unflagging perseverance. Wool is the hero of the war of 1812, the Indian war of 1836, the war with Mexico in 1847. In all these wars he has played a leading part, and in such a manner as to receive the plaudits and admiration of the whole American people. It is an insult to the State of New York to not order "old Buena Vista" to take the field in this glorious fight against perjury and treason.

ATTEMPTED INSURRECTION.—In Monroe county, Arkansas, about thirty miles west of Helena, several negroes were arrested recently upon a charge of attempted insurrection. Three of the negroes—two men and one girl—were hung. One of those executed belonged to Col. Lightfoot. He was a mulatto boy, a blacksmith, formerly owned by James Bush, of Big Creek. He was the ringleader of the plot, which, as detailed by himself and others, was most ferocious. The white male inhabitants were to be murdered—the females and children spared, provided they did not resist.

MUNIFICENT DONATIONS.—We learn, says the Boston Transcript, that Dr. William J. Walker, of this city, who is one of the most opulent surgeons in the country, has given property estimated to be worth $90,000, to establish Professorships in Mathematics in three of the Colleges of Massachusetts. These institutions are Williams, Amherst, and Tufts Colleges, each of which will receive $30,000 for the purpose above named. Dr. Walker is a graduate of Harvard College and a Unitarian, but in the bestowal of his portion of his property, has evinced a wise and comprehensive view of the needs of these institutions.

☞A despatch from Indianapolis to the Cincinnati Commercial says that a company of fifty sharp shooters will be organized to each of the Indiana regiments now in the field and to be organized. They will be armed with the best rifle now in use, and are to be drilled in target shooting, to act as an advance guard and skirmishers. This is said to be a good move, and is strongly urged by the military men of the State.

STEEL SHIRT COLLARS.—A great Manchester (England) house states that they will supply "elastic steel shirt collars, wrist-bands, and fronts, enamelled white."

IMPORTANT COTTON STATISTICS.—A Paris correspondent of the New York Tribune says:

The value of cotton fabrics exported from England to the United States in the month of April, 1859, amounted to 171,710 pounds sterling; in 1860, to 151,426 ditto; in corresponding month of 1861, to 23,358 ditto. In the first four months of 1860, this sort of exports to the United States of America, amounted in value to 1,362,841 pounds sterling; in ditto 1861, to ditto they amounted to 946,695 pounds sterling.

The stock of raw cotton on hand at Havre, June 1, 1860, was two hundred and sixty thousand five hundred and thirty bales; June 1, 1859, was one hundred and five thousand three hundred and forty bales. The stock of raw cotton on hand in Liverpool, May 31, 1861, was one million one hundred and fifty-one thousand three hundred bales; same date, 1860, was one million two hundred and ninety-five thousand one hundred and fifty bales.

That in the first five months of 1861, the English importation of cotton amounts to one million nine hundred and four thousand bales, of which one million five hundred and twenty-five thousand bales came from America; while in the first five months of 1860, the importation amounted to two million two hundred and thirty-six thousand bales, of which one million eight hundred and twenty-eight thousand came from America: that is, the diminution of the "demnition total" falls entirely on the American supply. And, since we are at Liverpool, quote again: That dealers' advices are that one hundred and thirteen thousand bales of cotton are new en route from America, while at the same time last year there were one hundred and sixty-six thousand bales en route from America; and per contra note: that dealers' advices, at that same Liverpool port, are of two hundred and twenty-two thousand seven hundred bales of cotton en route from Bombay at the close of May, 1861—their advices of the same date in 1860 announcing from that Indian port but eighty-eight thousand bales.

WASHINGTON, June 19.

THE DOUGLAS MONUMENT ASSOCIATION.—The Douglas Monument Committee met to-day, Hon. John B. Haskin in the chair. Present—John F. Ennis, J. J. McElhone, George W. McLean, Thomas C. Field, and A. M. Selade. They reported that John W. Forney would deliver a eulogy, and Prof. Henry, of the Smithsonian Institution had kindly proffered the use of the lecture-room of the Institution, of which Judge Douglas was one of the regents, for the occasion. Prof. Henry was selected to preside.

It is recommended that the friends of the late Senator Douglas, without restriction of party, assemble in their respective towns, cities, and villages on the evening of the 3d of July next, for the purpose of forming relief and monument associations for their several localities, when donations and subscriptions will be received and forwarded to the treasurer hereafter to be appointed. The friendly aid of the ladies of the United States is requested.

COTTON PLANTERS' CONVENTION.—A convention of cotton planters was held at Atlanta, Ga., on the 11th inst., Howell Cobb presiding. The committee to take into consideration the present condition of the cotton culture and trade of America, the dangers which surround it, and the best mode necessary for its protection and preservation, reported the following among other things:

We recommend to the planters to take at least one half of their crop in the Confederate bonds, (which will give the government seventy-five millions per annum), as the very best investment they can possibly make at the present time. There is nothing earthly to prevent planters from doing this, and it is the opinion of your committee that it will be done. A bank bill is nothing more than a note without interest, and yet thousands of planters have been in the habit for years of taking these for their whole crops and keeping them for years in their safes without a cent of interest. These government bonds are in every way as secure and far more secure than bank bills, and by laying them in your safes you will receive instead of nothing, 8 per cent. for your money. If the Southern government is successful these bonds will be as good or better than gold. If it is not sustained, no property you have will be worth one cent. You will be deprived of your liberty, and like banished exiles, sent with your little ones to seek for bread in foreign lands by beggary.

SOUTHERN ITEMS.—From a large number of Southern exchanges, received yesterday, we take the following items indicative of things and the feeling in the South:

Mansion for President Davis.—A despatch to the Savannah News, dated Richmond, says:

"The City Council yesterday purchased the mansion of Louis D. Crenshaw, at a cost of $50,000, for the use of President Davis."

Monroe County.—A friend informs us that the Inferior Court of Monroe has ordered fifty thousand dollars to be raised by taxation for the support of the war. That is doing things right.—*Macon Telegraph.*

The Blockade.—A fleet of four vessels was anchored off Charleston bar Friday last—the Minnesota and another vessel, supposed to be the Roanoke or Colorado, and two large steamers, formerly merchant vessels. Towards evening one of the latter disappeared to the southward.

The tug Resolute towed out the British ship Quebec from this port Saturday last, but cut her ropes and put back before getting in reach of the Union, which, it seems, has made her reappearance off our bar. The Quebec proceeded to sea, but was overhauled and boarded by a party from the Union, after which she was seen to continue her voyage without further molestation.

The Union, we learn, is the merchant steamer Mount Vernon, formerly of the Savannah and Baltimore line.—*Savannah Republican, 10th.*

Cotton blooms were plentiful in Dougherty county, Georgia, on the 6th June.

The Helena Shield says the work on the battery at that place was to commence on Monday last.

The war seems to be a perfect God-send to the thieves of the North, both small and great. The former, who had been almost beggared by the hard times, have found food (such as it is) and pay in the armies of the United States. The latter are making swelling fortunes by contracts and stealing generally.—*Richmond Whig.*

The Yankee Army.—Four-fifths of the army, which Lincoln has, enlisted for only three months. That time expires by the middle of July. Judging from what we see in the Northern papers, no large portion now in the field will enlist for a longer service. Most of the forces from New York were *drafted* militia—they came contrary to their wishes—they will very probably return at the first opportunity.—*Idem.*

Brave News from Missouri.—The news that the Missourians have captured that Yankee monster, Lyon, and his band of Hessians, is so good, that we can't help fearing it may not be true. But it comes from two different sources, which inclines us to believe it. Heaven grant it may be so!—*Idem.*

It is reported that Cadwallader and Patterson have recrossed the Potomac, to avoid Gen. Johnston.—*Idem.*

A public meeting of the citizens of Floyd county, Ga., was held in Rome on the 18th inst., the proceedings of which we find in the Southerner, at which the following resolution was adopted:

Resolved, That, in the opinion of the meeting, it is manifestly inevitable and unjust that any one county should be taxed more than another in support of the war, simply because such county is more patriotic. Some counties have equipped and sent into service several companies—others none. Our own county has already equipped five, and more will soon be in the field; we, therefore, recommend to the next Legislature that the State of Georgia do assume the payment of all expenditures made by the different counties in equipping their volunteers, settling the same with the county Treasurers upon the basis of military rules and commutation. Patriotism should not be burdened with a system of unequal taxation.

DESIRE OF SOLDIERS FOR WATER ON THE BATTLE-FIELD.—A participator in the fight at Great Bethel gives the following idea of the risk a soldier will run to obtain water upon the battle-field:

Some of us have had very narrow chances for life. In the course of the fight, several of us ran across a road along which the cannon of the enemy were constantly playing, in order to get water. (I find, by the way, that on the battle-field a man will risk his life, without hesitation, for water.) Having got it, we were waiting to rush back again, dodging the balls in order to do so. Our First Lieutenant sang out: "Don't so many of you come at once!" I, with some others, stopped to allow the next lot to pass. They made a rush, and when nearly across, a cannon ball came whizzing along and killed four men, mowing them down instantly. One was of our own corps, one of the East Boston company, one a Lieutenant of Artillery and one unknown to me. On seeing this, we immediately made a rush after them, but, though running the same risk, went safely over.

FRANKFORT, KY., June 25, 1861.

GENTLEMEN:—Governor Magoffin reached home by the up train last night—this morning by eight o'clock he was in secret conclave at the State mansion, and continued there until 11 o'clock, A. M., with the Hon. Richard Haws, Stoddard Johnson, Col. John S. Williams (Cerro Gordo John), Geo. W. Johnson, and others—the supposition here is to authorize Cerro Gordo John to head some men who want their rights to intercept some guns which are now on their way to Knox, Laurel, and Rockcastle counties in this State. If John is foolish enough to attempt such a thing, I hope he will get his rights, in the right way, viz: a situation with Jerry South, in the big stone building erected for highwaymen. Those guns are private property, and are consigned to Kentucky gentlemen at those points.

I also understand that some of the secessionists of the city of Lexington are out on the same errand. Hope they will have a good time.

We had another pole and flag raising in South Frankfort, on yesterday evening. Speeches on the occasion were made by Hon. J. J. Crittenden, Pres. Sparks, of Henry, W. H. Sneed, and B. B. Sayre, Esq., of this city. Music by Haly's Band. The pole and flag were raised in front of Major Edgar Keenon's residence. K. B.

GENTLEMEN: I send you the result of our special election yesterday:

We have two traitor companies in this county that, we understand, went over to Clarksville and took the oath in Jeff. Davis' Confederacy. They have an encampment in the southern part of this county, and were permitted to vote. They are now Jeff. Davis' soldiers, and should Gov. Magoffin permit them remain in Kentucky? They have violated his proclamation—they have invaded our soil, with hostile intent, armed and equipped as the *law directs.* These companies were raised for the avowed purpose of fighting American citizens. They were intended as the *Governor's Armed Neutrality* men that were to whip us into the secession ranks. CHRISTIAN.

WASHINGTON, June 24.

The Cabinet had a protracted session to-day with Gen. Scott.

There is no sign of any important movement. Gen. Beauregard won't come to our relief. Gen. Scott won't do anything, and won't let anybody else. He waits for the enemy to eat themselves up.

There is a great deal of marching, and countermarching, and music, among the newly arrived troops to-day, but it is mere show business.

It is proposed to send Gen. Butler, with 10,000 men, who can be spared from Fortress Monroe, direct to Charleston. That would bring them to their milk.

GRAFTON, June 24.

Great activity to-day in the movement of troops.

The Ohio Sixteenth goes to Cheat River to-morrow.

A scouting party made up from the First Virginia Regiment went yesterday from Cheat River to Chrisholm's mill, beyond Oakland, and captured a dozen or more rebels with arms. Chrisholm and two sons with seven others were brought in.

Private Sears of the 6th Indiana Regiment, from Madison, Ind., died of consumption and was buried at Webster.

Piedmont is not occupied by the rebels—all is quiet at threatened points.

MOLASSES—100 bbls Plantation Molasses in store and for sale by [a23] WM. GAY.

☞We publish below the conclusion of the able, patriotic, and eloquent letter addressed by the Hon. Thos. A. R. Nelson to the people of Tennessee on the eve of the late so-called election in that State:

Now, with these cumulative and accumulated evidences before you, do you not see that a grave error has been committed by those who, in moments of wild excitement, and without careful examination, have charged that the object of the President is to subjugate the South? In the face of Heaven, of his country, and of the whole world, the President has repeatedly declared the contrary. Who are we to believe? Are we to take the wild ravings of fanatical and abolition journals, which have been published broadcast over the State, as the evidence of the President's intentions, or are we to look to his official proceedings and his own solemn acts and declarations? In an awful crisis like this, involving our own destiny and the fate of our children's children, it is a great crime against God and man to suppress the truth and delude the people into an unjust rebellion against a Government they have loved. The idea of subjugation is contrary to all Mr. Lincoln's avowed purposes and acts. If States make war upon the Government, they can expect nothing but war in return. If they let the Government alone, they need not fear any molestation. Why, then, should Tennessee complicate our national difficulties?

Notwithstanding the hue and cry of subjugation which has aroused a portion of the people of Tennessee to madness, the Richmond Examiner of the 16th instant boasts that "we have taken a great many Federal forts and hundreds of thousands of arms without opposition, and captured Ft. Sumpter after the Administration had been engaged more than a month in measures to relieve it. *No seceded State is invaded,* although Lincoln, his Cabinet, and the whole North have been trying to do so for more than two months. * * * * To preserve appearances, they will no doubt make an occasional John Brown raid and shoot a few negroes, pigs, and poultry; but they have no more idea, and no more ability to invade the South than to invade England." This is from a secession paper.

What, then, becomes of the argument which has been used to infuriate the people of Tennessee? If no invasion of Tennessee is intended, why should Tennessee rush madly into a conflict which concerns her not? Why not stand side by side and shoulder to shoulder with Kentucky, and, instead of becoming a party, become a mediator in this most unnatural strife. Abolitionists have acted very wickedly—the Cotton States have done wrong—but they are all our brethren; and the noble part for Tennessee to act is to stop, if possible, the further effusion of blood between them.

But it is said this is a war between the North and the South, and we are compelled to take sides. I do not so regard it. It is a war between the Government of the United States and rebellious citizens who have committed treason against that Government. Neither is it a war between Lincoln and the South. It is a war between the Constitution and those who have violated it; a war between law and no law—between order and anarchy—between freedom and despotism—between right and wrong. It is a war in which the odds are fearfully against us; but this should have no weight, were justice on our side. It is a war the end of which no man can foresee. Thus far the South has bragged, and boasted, and bantered. The sluggish North has been at last aroused, and difficulties and dangers beset us on every hand. In the depreciation of property, the enhanced prices of goods, increased taxation, lawless violence, the threats against free speech and a free press, a military array in every civil District, and wild, reckless, and unprincipled legislation, we can scarcely see the beginning of the end. "The end is not yet."

Freemen of Tennessee! if you are allowed to vote on the 8th of June, it is yet in your power to arrest the despotism of "King Harris," and retrieve the blunders of a misguided Legislature. It is yet in your power to prevent a war in our midst; to save the lives of our citizens; to preserve our cities, towns, and villages, and to secure the blessings which heaven has promised to the peacemaker. It may be yet in your power to rescue the Union itself, and to preserve the stars and stripes as a priceless legacy to posterity. If a fair election is held, and Tennessee is voted out of the Union, it behooves us all to act together to avoid a civil war among ourselves. If the election is carried by force or fraud, then let every friend of the Union throughout the State cry, "Every man to his tents, O Israel!" Should that dreadful alternative be forced upon you,

"Snatch from the ashes of your sires
The embers of their former fires,
And he, who in the strife expires,
Will add to theirs a name of fear,
That tyranny will quake to hear."

THOS. A. R. NELSON.

CONFEDERATE DESERTERS—THEIR ARMY—EAST TENNESSEE.

WILLIAMSBURG, WHITLEY COUNTY, June 20, 1861.

This evening seven deserters from the army of the Southern Confederacy arrived in this place, having left the cars and cause at Knoxville, Tenn. When they came in sight of the flag of the United States waving over the Court-house, they set up a hurrah and could not be induced to make a halt until they were at the foot of the flagstaff. They are all German, some of them were part of the crew of the Diana two months ago, and all state that they were picked up by press gangs in New Orleans, gagged, carried to the recruiting offices, and from there in close wagons to the camp at the race-track and forced to take service in the Southern army. They informed me that their whole company are German, who *volunteered* under the same circumstances, and that they composed a part of 300 Louisiana troops, all or nearly all of whom were the same kind of volunteers, except one company from Achifalaya, which was composed of the sons of the planters of that parish. While in camp in Louisiana and Mississippi their rations were bread, bacon, and coffee, full rations, but, after they were put into the cars they had but one meal per day, and at all stopping places were closely watched—that material for clothing is very scarce, which I should think true, as their uniforms are of very poor material. They report the general camp equipage very good, except that the troops are short of shoes, and those furnished are of the poorest quality. Powder is scarce; only one man had ever had a ball cartridge in his possession even when on guard. The Louisiana troops were armed with percussion muskets, but the Mississippi regiment which was with them was without arms, and was expecting to be armed in Virginia. They have been paid, as one of them said, "For two months, nothing, at two times," and all hands were very much discontented, and would desert at the first opportunity. All in this part of the State are praying night and day for arms to enable them to help the men of East Tennessee. May "their friend Abraham," as they call the President, speedily send them. The mountain men know how to use them, and now seem to have no occupation but cursing secession and secessionists from Monday until Sunday.

Yours truly, KENTUCKY.

UNION MEETING IN MEADE CO.

A convention of the citizens of Meade county was held at Brandenburg on the 22d of June, 1861, open to all who opposed secession and favored an armed neutrality in good faith. The meeting was composed of citizens from all parts of the county and without any reference to past party affiliations.

Ben. Elder was called to the chair, Maj. Moremen and Hardin Popham elected Vice Presidents, and Samuel H. Boone, Secretary.

The object of the meeting was anounced to be the recommendation of some gentleman as a candidate for the Senate from this district, and to nominate a candidate for the Legislature.

Judge Wm. Alexander was then recommended by this Convention, on motion of Dr. Brown, to the Convention to assemble in Elizabethtown on the 6th of July, prox., as a suitable person to represent the Senatorial district. Delegates were appointed and instructed to support Judge Alexander as their first choice.

Thos. B. Fairleigh nominated Dr. Thomas W. Owings for the Legislature. The Doctor wished to withdraw his name, but the convention would not permit it, and he was then unanimously nominated as the candidate of the Union party to represent Meade county in the next General Assembly. He accepted the candidacy thus tendered him in a chaste and elegant address, full of ardent love for his country, his State, and the great cause of the nation's salvation.

Thos. B. Fairleigh was then called upon and responded in a powerful and patriotic speech, pledging his most zealous support to the nominee and the faith of the Union party.

Judge Alexander, in an eloquent address, returned thanks to the convention for the honor done him, and then Dr. Brown and Mr. Ashcraft made brief addresses in response to calls.

After requesting the Louisville Journal and Democrat, the Frankfort Commonwealth and Elizabethtown Democrat to publish these proceedings the convention adjourned. The greatest harmony and enthusiasm prevailed.

BENJ. ELDER, Chairman.
SAM'L H. BOONE, Secretary.

CHEAT IN WHEAT.

To the Editors of the Louisville Journal:

WEST TOWNSHIP, MCLEAN CO., ILL., June 12, 1861.

GENTLEMEN: I saw in your Journal some years ago a proposition to give one hundred dollars to any one who would demonstrate that wheat would produce chess, or cheat, as it is commonly called. Now, sirs, I think I can demonstrate the fact. I have been convinced for at least ten years; but, to convince some of my skeptical neighbors last harvest, I took three heads of wheat and laid them on hard ground on the side of my garden where they were exposed to sun and rain till late in the fall. They sprouted and took root, but were nearly killed through the winter. This spring I invited my neighbors to examine them. The heads were nearly perfect, and plain to be seen that the sprouts came from the grain yet in the head, and even now the heads can be distinctly seen as they were laid last harvest. It is now in full head, and there is not one head of wheat in it. It is all cheat. Is this proof? If it is not, I would like to know what kind of proof you want. I don't want your hundred dollars, but if you are yet skeptical I will make this proposition: If I fail to demonstrate that wheat will produce cheat or chess, I will agree to give one hundred or one thousand dollars to any charitable institution (not sectarian in its tendencies) you may select, provided you will do the same for me if I establish the fact. SPECIAL NOTICES.

☞The following is a sample of the numerous letters constantly receiving for Hostetter's Stomach Bitters:

CANANDAIGUA, July 15, 1859.

MESSRS. HOSTETTER & SMITH, Pittsburg, Pa.—Gents: As we are strangers, I herewith enclose you twenty-eight dollars for four dozen Hostetter's Stomach Bitters, which please forward via Michigan Southern Railroad, Toledo, Ohio, and Clayton Station. I have purchased several dozen bottles at Toledo this summer, but the sale is on the increase so much that I wish to open a direct trade with you. I was induced to try your Bitters by my physician for the Liver Complaint, and received such material aid, that I have recommended it to others and have sold about two dozen per week for some time. I have all kinds of medicine in my store, but there is none that I can so cheerfully and truthfully recommend as your Bitters, for I know they have helped me beyond my expectation.

Yours respectfully, PHILO WILSON.
Sold by all druggists. j3 dlm

☞Something to restore; and it will do it. See Prof. Wood's advertisement.

APPEAL TO SCIENCE
If you wish to be sure of obtaining a perfect hair dye without one deleterious element, CRISTADORO'S EXCELSIOR DYE is the *only one* ever submitted to this ordeal. It has been
ANALYZED BY CHILTON,
the first chemist in the country, and his certificate setting forth its harmlessness is within the reach of every buyer.
THE EXQUISITE BEAUTY
of the lustrous blacks and browns which it produces with unerring certainty in ten minutes has fairly won for it the appellation *of the most natural hair dye* ever invented.
Sold everywhere. Applied by all Hair Dressers.

TELEGRAPHIC NEWS.

From the Evening Bulletin.

[Special to the New York Times.]

WASHINGTON, June 24.

Fears are entertained in the towns along the lower part of the Potomac of a rising of the slaves and a general stagnation of trade was manifest.

F. A. Aiken, of this District, formerly of Vermont, and the Secretary of the National Democratic party, has proposed to the War Department to raise a regiment forthwith of Northern Democrats for active service during the war, and thus testify their appreciation of Mr. Lincoln's efforts to maintain the Government.

Charles H. Foster announces himself as an unconditional Union man from the First District of North Carolina. In a handbill, dated at Murfreesboro, he notifies the people of the district that by a law of North Carolina the first Thursday in August is the day fixed for the election of representatives in Congress, and on that day he invites the electors to give him their suffrages and cast their ballots without fear or intimidation.

I have to-day an explanation of the reason why the rebels resort to such tricks as that when they captured the captain of a Connecticut regiment on Saturday last, and why they pick off the pickets and capture every man they can reach. They are gathering all such prisoners and holding them as hostages for the personal safety of the pirates. They intend to hang an equal number of prisoners of war, and thus retaliate upon loyal men the punishment inflicted by us upon buccaneers.

[Special to the N. Y. Tribune.]

The rebels have made two propositions of peace to the Administration—one contemplates the complete recognition of the Southern Confederacy, with a treaty of commerce and a subsidy of $5,000,000 for giving us protection against foreign and domestic enemies. The other, which is still under consideration, consents to a suspension of hostilities, a laying down of arms, and the extension of the line of 36 deg. 30 min. to the Pacific.

Perhaps censorious people may see immediate connection between these facts and the supineness of both armies on the other side of the Potomac, and the indignation manifested towards the rapid energy of Gen. Lyon and Col. Blair in Missouri.

It is possible that the two Houses of Congress will be so impertinent as to enquire into the history of this tampering with traitors in rebellion.

William D. Gallagher, of Kentucky, lately confidential clerk of the Secretary, has been appointed Collector of the port of New Orleans, and will leave Washington for Cairo to-morrow. He will accompany our army in its progress down the Mississippi, and there can be no doubt that his appointment and departure for this point indicates an advance the earliest practicable moment upon Memphis. This will not be for some weeks, but will move southwardly with the flag, restoring the commercial relations of the Union and sealing up all lines of transportation for the rebels as he proceeds. It may not be generally known that the collection district of New Orleans embraces the valleys of the Mississippi and Ohio, including their tributaries and reaching as far east as Pittsburg. The so called Collector of Louisville and other towns within the district are only Surveyor's agents of the New Orleans Collector.

It is undoubtedly true that letters and provisions are constantly going by night from Maryland, &c., to Virginia, even under the nose of the Pawnee.

Slaves belonging to a Fairfax county rebel offered their services to the Second Michigan Regiment. They were accepted.

The apparent discrepancy in the reports from Fairfax Court-House is explained by intelligence received to-day. The rebel force there is not posted in the village, but near it.

A gentleman just arrived, having been detained at Manassas a while, says the troops there are in a perfect frenzy of excitement, and all with whom he conversed spoke freely of the meditated attack upon Washington, asserting triumphantly that they would be in Washington before Saturday night. He was told that the rebel force consisted of 20,000 at Manassas and Fairfax, and 20,000 on the line of the Potomac.

[Special to the N. Y. Herald.]

Offensive movements on the part of the Government will doubtless be deferred some time, owing to a change of programme by the rebel Chiefs. The grand assault upon Washington, about which they bluster, appears to be abandoned on account of its involving their certain defeat. They now propose to act entirely on the defensive, but although they are concentrating their forces in this neighborhood, it is not probable that they will hazard a general engagement anywhere this side of Richmond.

It is asserted that Wilson's Zouaves have gone to Fort Pickens, but it is quite likely they have gone to Charleston. Several other regiments about leaving the North will probably go there also.

The War Department received intelligence that Col. Stone has entered Harper's Ferry with his command sufficiently strong to hold that position. A return of the rebels was only for the purpose of making the destruction of the place complete. Why Gen. Patterson should have allowed this when he only had to march and possess the place is the subject of comment and surprise in high military circles.

A report reached Washington to-night that Alex. H. Stephens, Vice President of the so-called Confederate States, is dead. The information comes through rebel sources, hence cannot be traced beyond this point. It is well known that he has recently been ill.

CINCINNATI, June 25.

The gun-boat A. O. Tyler dropped down the river yesterday afternoon. The Lexington and Conestago will leave to-day.

The 10th Ohio regiment, Col. Lytle, left Camp Dennison yesterday afternoon for Western Virginia. The 6th and 7th will probably leave tomorrow.

The troops remaining at Camp Dennison are the 5th, 6th, 7th, 8th, 11th, 12th, and 13th regiments, numbering over 6,000 men. The 1st and 2d Kentucky regiments will remove their quarters to Camp Dennison to-day, swelling the number to 8,000.

Patrick Kinney was shot and instantly killed last night by Policeman Purcell for interfering in an arrest.

[Special despatch to the Cincinnati Gazette.]

GRAFTON, June 25.

It is considered certain that 5,000 rebels are in the camp thirteen miles beyond Phillippi. This force includes at least one Georgia regiment and one Tennessee. All are said to be uniformed and well armed. Porterfield's troops and others, numbering 3,000, are kept back at Huttonville.

Skirmishing continues between the pickets. The Sixth Indiana and Fourteenth Ohio Regiments are concentrating at Phillippi. The Sixteenth Ohio is at Cheat River, and the Eighth and Tenth Indiana Regiments are at Clarksburg.

It is rumored that all the secession forces excepting 100 cavalry have left Romney.

About 20 prisoners were discharged to-day, most of them voluntarily taking the oath of allegiance.

Cols. Key and Dunn, detailed to examine prisoners, decided that they will hold traitors with the intention of turning them over to the civil authorities for trial for treason, except in case of guerrillas who will be shot.

FORTRESS MONROE, June 24.

Gen. Butler visits the Rip Raps to-day to experiment with the Sawyer gun. Capt. Oyer, of the Ordnance Department, has prepared a charge against Gen. Butler for permitting Sawyer to conduct the experiments there, there being a clause in the army regulations forbidding the interference by any officers with the Ordnance Department.

The mercury in the shade yesterday reached 101 degrees.

ST. LOUIS, June 24.

The Democrat's special from Boonville says that Gen. Lyon addressed the citizens of that place yesterday, and expressed the desire to be furnished with horses and wagons. This morning his request was responded to, and he procured all he wanted. This would seem to indicate an overland movement toward the Arkansas border.

FREDERICK, June 25.

A Maryland secessionist, direct from Winchester yesterday, reports that the main body of the Confederate army lately at Harper's Ferry, to the number of 1200, are stationed on the fair grounds near that place. The remainder are stationed at Bunker Hill, Romney, and at a point near Charleston.

At Romney a guerrilla regiment, commanded by McDonald, is also stationed.

On Sunday afternoon the troops at Winchester received orders to march, and at two o'clock their tents were struck and every preparation made to march.

The orders, however, were suspended until 10 o'clock at night, and subsequently countermanded, to the intense disappointment of the entire force. He represents that the men were well fed and fiercely eager for a battle. Their health is generally good.

The report of the hanging of Col. Bowman and Mr. Chase of the Federal army, who were taken prisoners, is false. They were conveyed to Richmond, where they will be released on parole.

The Virginia State Convention, now in session there, have elected a number of delegates to the Confederate Congress. The following gentlemen are among those chosen: Ex-President Tyler, Walter Preston, Robert A. Scott, Wm. Ballard Preston, Senator Mason, and Roger A. Pryor.

MILWAUKIE, June 25.

All quiet to-day, though a constant guard is kept at the jail and in the streets. There is no apprehension of any disturbance to-day.

ARRIVAL OF THE EUROPA.

HALIFAX, June 25.

The Europa, with Liverpool advices to the 15th, via Queenstown on the 16th, has arrived.

Sales of cotton on Saturday 12,000 bales—the market closing firm. Breadstuffs very dull. Provisions dull. Consols closing at 90@90⅛.

The news is meagre. The crops in England were making rapid progress under the influence of hot weather, and the corn markets had all declined.

The Italian Cabinet will carry out all the instructions of Count Cavour.

The Paris bourse closed at 67f. 95c for rentes.

PITTSBURG, June 25, M.

River 2 feet 9 inches and falling by metal mark. Weather clear and warm.

Reported for the Journal.

WASHINGTON, June 25.

A special despatch to the Commercial says: There is the highest authority for contradicting the stories about the rebels having made peace propositions to the Government, though some persons and journals have professed to give somewhat minute details. There is no truth in it whatever. On the contrary, the Administration have received assurances that the rebels intend prosecuting the war with the utmost vigor, and, if possible, overthrow the Government and destroy the republic, even though they perish in the ruins. They feel that the two governments cannot exist in such close proximity or even on the same continent.

No full official account of the Great Bethel affair has, as yet, been made public, and it is thought here that our loss is much larger than has been supposed. It is known that just as the order to retreat was given the rebels were leaving their outer intrenchments, fearing they would be carried by storm. Emboldened by the withdrawal of our forces, they resumed their position and continued the fire.

The highest officers of the Confederate States are in Richmond.

A special despatch to the New York Post says it is rumored here that Ben Wood of New York, and Clement Valandigham, of Ohio, will at an early day offer resolutions in Congress for the recognition of the Southern Confederacy. They are the only Northern tories in Congress.

The Baltimore secessionists are very angry with General Johnson for his wholesale destruction of property at Martinsburg. The act has opened the eyes of the wealthy rebels. They now begin to see with what sort of traitors they have concerted with.

One thousand rebel troops have been posted at Occoquan, Va., to guard against a flank movement by the Federal troops.

It is understood to be the policy of the Government to permit the rebellious Legislature of Maryland to pass any disloyal acts it pleases, but if such acts conflict with the Constitution and the interest of the nation they will abolish the Legislature at the point of the sword as was the case of Missouri.

It is stated that Gen. Cadwallader had direct orders from Gen. Scott not to advance to Martinsburg, Va.

JEFFERSON CITY, June 25.

Several persons arrived to-day from the southwest portion of the State, one of whom brings a proclamation issued by John Ross, of the Cherokee nation.

The Rev. T. Ramsey, missionary, left Follifah on the 5th day of June, and reports that Ben McCullough and Albert Pike, of Arkansas, had been there urging the chiefs to reconsider the position taken in his proclamation but they failed in their object and had left for the Creek Nation, hoping to get aid from them. Captain Pike had an escort of 75 men.

Mr. Price, paymaster of the Iowa regiment at Booneville, is here. The following is the proclamation referred to above:

Owing to the momentous state of affairs pending among the people of the several States, I, John Ross, principal chief, hereby issue this, my proclamation, to the people of the Cherokee Nation, reminding them of the obligations arising under their treaties with the U. S., and urging them to the faithful observance of said treaties by the maintenance of peace and friendship towards the people of all the States. The better to obtain these important ends, I earnestly impress upon all my fellow-citizens the propriety of attending to their ordinary avocations and to abstain from an unprofitable discussion of the events transpiring in the States and from partisan demonstrations in regard to the same. They should not be alarmed by false reports thrown into circulation by designing men, but cultivate harmony among themselves and observe good faith and strict neutrality between the States threatening civil war. With these means alone can the Cherokee people hope to maintain their own rights unimpaired, to have their own soil and firesides spared from the baneful effects of devastating war. There has been no declaration of war between the opposing parties and the conflict may yet be averted with compromise or a peaceful separation. The peculiar circumstances of their condition admonish the Cherokees to the exercise of prudence in regard to the state of affairs, to the existence of which they have in no way contributed, and they should avoid the performance of any act on the adoption of any policy calculated to destroy or endanger their territorial or civil rights. With an honest adherence to this course they can give no just cause for aggression or invasion, nor any just pretence for making their country the scene of military oppression, and will be in a situation to claim and retain all their rights on the final adjustment that will take place between the several States.

For these reasons I earnestly impose upon the Cherokee people the importance of non-interference in the affairs of the people of the States and the observance of unswerving neutrality between them.

Trusting that God will not only keep from our borders the ravages of war, but that he will, in his infinite mercy, stay the ravages among the brotherhood of States.

Given under my hand and seal at the Executive office at Park Hill, this 17th day of May, 1861.

JOHN ROSS,
Chief of the Cherokee Nation.

GRAFTON, June 25.

Capt. Howe's regulars, with a battery of six pieces, reached here early this morning.

Capt. Birdshall's company arrived this evening and proceeded to Clarksburg.

Gen. McClellan continues very actively engaged. He went as far east as Cheat river this afternoon on a tour of reconnoissance and returned this evening. The following proclamation has been issued by him to the soldiers of the army of the West:

You are here to support the Government of your country and to protect the lives and liberties of your brethren threatened by a rebellious and traitorous foe. No higher nor nobler duty could devolve upon you, and I expect to bring to its performance the highest and noblest qualities of the soldier's discipline, courage and mercy. I call upon the officers of every grade to enforce the strictest discipline. I know that all grades, privates and officers will display in battle, cool, heroine courage and well know how to show mercy to a disarmed enemy. Bear in mind that you are in the country of friends, not of enemies, that you are here to protect, not to destroy. Take nothing, destroy nothing unless you are ordered to do so by your general officers.

Remember that I pledged my word to the people of Western Virginia that their rights in person and property shall be protected. I ask every one of you to make good this promise in its broadest sense. We came here to save, not upturn. I do not appeal to a fear of punishment but to your appreciation of the sacredness of the cause in which we are engaged. Carry with you into battle the conviction that you are right. God is on your side. Your enemies have violated every moral law. Neither God nor man can sustain them. They have, without cause, rebelled against a mild and paternal Government.

They have seized upon public and private property. They have outraged the persons of Northern men, merely because they came from the North, and of Southern Union men merely because they loved the Union. They have placed themselves beneath contempt unless they can retrieve some honor on the field of battle. You will pursue a different course. You will be honest, brave, and merciful. You will respect the right of private opinion. You will punish no man for opinion's sake. Show to the world that you differ from our enemies on the point of honor, honesty, and respect for private opinion, and that we inaugurate no reign of terror where we go.

Soldiers, I have heard that there was danger here. I have come to place myself at your head; to share it with you. I fear but one thing—that you will not find foemen worthy of your steel. I know that I can rely upon you.

GEO. B. McCLELLAN,
Major General Commanding.

WASHINGTON, June 25.

The rebels are erecting defensive works in the vicinity of Fairfax Court-house. It seems that Beauregard told a lady that the Confederates have not the purpose to invade Washington. Probably the recent heavy increase of the Federal troops deranged his purpose.

A woman was to-day arrested as a spy. A chart of the precise position of the troops was found upon her.

The United States pickets now extend all the way from Georgetown to Harper's Ferry.

There are no signs of early movements in Virginia.

It is said that Scott held a military conference to-day.

ALEXANDRIA, VA., June 25.

Lowe's balloon yesterday having discovered scattering camps in the vicinity of Fairfax Court-house, Lieutenant Tompkins's command, his cavalry company, also several companies of light infantry, proceeded there last night. There was a wild rumor, which has probably been received from Washington, that Lieutenant Tompkins's cavalry were cut to pieces last night. No official intelligence of his operations has yet been received.

GRAFTON, June 25.

The letter of Gen. Buckner to Gov. Magoffin dated at Louisville, June 10th, created much surprise here. It is understood that the interview was purely personal, solicited by Buckner, and that the letter presents an entire misconception and erroneous view of the conversation.

ALEXANDRIA, June 25.

Lieut. Tompkin's men are all at Camp Taylor this morning. There is no light upon the expedition.

It is said that there were only 1,000 rebels at Fairfax yesterday.

NEW YORK, June 25.

Capt. Baker and the pirate crew of the Savannah were arrested to-day immediately on their arrival by District Attorney Smith, charged with treason, piracy, and robbing on the high seas. Capt. Livingston, of the Brig Joseph, seized by them, is a witness. They will be taken before the grand jury to-morrow, and the case will be tried early next week.

WHEELING, June 25.

The convention to-day finished its business for the present.

Several ordinances of local importance were passed—one recognizing the duty of the State to call out the militia in answer to any requisition of the Federal Government.

The President, in reply to a vote of thanks, made a neat speech, urging the members to go home and put into operation the State Government they had inaugurated.

The convention adjourned till the first Monday in August.

The Legislature will meet here next Monday.

Parties who have come in from the Western counties to-night represent them in a state of guerilla war.

Great anxiety is felt there that effective measures may be taken to expel the invaders.

NASHVILLE, June 25.

The official majority for separation in Tennessee is 61,175. It was the largest vote ever polled.

FREDERICK, MD., June 25.

The Legislature adjourned at noon to-day to meet at Frederick on the 30th of July.

FURTHER BY THE EUROPA.

HALIFAX, June 25.

The Europa brings three days' later advices than per the Anglo Saxon.

The next vessel is the Galway steamer Aglia, which leaves July 2.

The Times, in an editorial on American affairs and the indignation of the North towards the attitude of England, asserts that the British public has given much sympathy for the Federal cause, more than it ever did to the cause of British sovereignty and union in any of its trials. It claims that England will do her duty and leave the Federalists to do theirs, knowing well that she could not do them a greater mischief than taking their part.

Sixteen gun vessels have been ordered immediately to join the squadron about to be despatched to the North American coast.

The recognition of Italy by France is near at hand, and will be hastened by Cavour's death.

The Journal des Debats publishes an important article, showing that, if Austria crosses the Mincio, France must inevitably recommence the war interrupted in 1859.

The confessor of Cavour had arrived at Rome, the bearer of a message from the deceased Minister to the Pope. The Pope was seriously ill.

Spain.—The Spanish journals publish advices from Saint Domingo that tranquility and enthusiasm for the Spanish Government reign throughout the Island.

London Markets.—Funds firm and slightly higher, influenced by splendid weather for crops. Money steady demand and 6 ⅌ cent. was the general rate. Advices from Manchester are unfavorable. Market dull with a declining tendency but manufacturers refused further concessions.

Liverpool—Breadstuffs market was dull with slight decline. Richardson, Spence, & Co., Wakefield, Nash, & Co., and others report flour dull and irregular and a decline of 6d@1s has to be submitted to; sales at 25@28s. Wheat very dull and declined 2d@3d; red Western 9s 9d@12s; for white 11@13s 6d.

Corn dull and declined 6d—mixed 29@30s 7d, white 31@32s 6d.

Provisions quiet. Circulars report beef steady. Pork quiet and transactions slight. Bacon heavy and quotations almost nominal. Lard heavy and holders pressing on the market—quoted at 50@53s. Tallow declined to 5s 6d.

Brokers' Circular—Sugar heavy and declined 6d@1s on inferior grades.

London Market—Baring Bros. quote wheat with a downward tendency—declined 1@2s ⅌ quarter and difficult of sale—white quoted at 62s, red 54@60s. Flour at 25@30s. Coffee dull and declined 6d. Rice dull.

American stocks—Baring Bro.'s report a firmer market: United States 6s of '68 80@81 (extra dividend), do 5s 71 (extra dividend), Virginia 5s of '88 44, Massachusetts 5s nominal at 94@95, Maryland 5s 70@75, Pennsylvania 5s 65@70, do of '77 70, Erie shares 21¾, Illinois Central 39½ discount, New York Central 88.

Latest Commercial by Telegraph to Queenstown.—Breadstuffs have a declining tendency. Provisions dull.

London, Saturday P. M.—Consols closed at 90@90⅛ for money and 90½@90⅝ for account. American stocks—Illinois shares 40@39 discount, and Erie shares 20½@20¾.

Havre.—Cotton market firm at a slight advance in fair and middling qualities; sales of the week 8,500 bales; Orleans tres ordinaire 114f, bas 104f. The stock in port amounts to 232,000 bales.

FURTHER BY THE ANGLO SAXON.

FARTHER POINT, June 25.

The Anglo Saxon, from Liverpool on the 13th and Londonderry on the 14th, arrived off here to-day.

The following commercial intelligence is the only additional news:

The sales of cotton for the week were 57,000 bales, of which speculators took 8,500 bales and exporters 7,500 bales. The market is quiet with a decline in inferior grades of ⅛, and closing firmer with an improved demand. The sales on Friday were 10,000 bales, of which exporters took 2,000 bales, the market closing steady; fair Orleans 8¾, middling 7 15-16; fair Mobile 8½, middling 7¾. Stock in port 1,131,000 bales, including 872,000 bales of American.

The bullion in the Bank of England had increased £7[illegible]. The bullion in the Bank of France was nearly £20,000,000.

DAILY REVIEW OF THE MARKET.

OFFICE OF THE LOUISVILLE JOURNAL, WEDNESDAY, June 26, 1861.

There has been no variation in exchanges since our last. Eastern is quotable at 1½ ⅌ cent. prem. selling, and 1 ⅌ cent. buying, while New Orleans is dull at 2 ⅌ cent. dis. buying and ½ ⅌ cent. dis. selling. There was little doing in the general market.

FLOUR AND GRAIN—Sales 100 bbls flour at $4 50@5 20. No grain sold.

POTATOES—Small sales at 55@60c.

CHEESE—Sales 40 boxes W. R. at 7½@8c.

GROCERIES—Firm. Sales 27 hhds sugar at [illegible]; 41 bbls refined at 10@10½c, and 60 bags coffee at 17@17½c.

TOBACCO—Sales 99 hhds—8 at $3 15@3 85, 17 at $4 15@4 95, 9 at $5 15@5 95, 15 at $6@6 95, 14 at $7 05@7 95, 12 at $8 05@8 75, 10 at $9@9 95, 3 at $10@10 50, 1 at $11, and 1 at $16.

NEW YORK, June 25, P. M.

Cotton—Demand continues good and market firm; sales 1,500 bales at 14½c for middling uplands. Flour heavy and unsettled and 5c lower, with moderate business doing for export at a decline; sales 19,800 bbls at $4 25@4 70 for superfine State, $4 60@4 70 for extra State, $4 20@4 30 for superfine Western, $4 50@4 90 for common to medium extra Western. Whisky in moderate request, with sales of 1,200 bbls at 16@16½c—nearly all at the inside price. Wheat heavy, unsettled, and 1@2c lower. The private accounts by the Europa are said to be very discouraging. Corn rules very firm; good enquiry for export and home consumption; sales 131,000 bushels at 44@50c for common to prime mixed Western, 50@52c for Western yellow, and 51@52½c for white Western.

Oats selling at 28@31c for Western. Pork market heavy and lower: sales 500 bbls at $14 50@15 for mess and $10 for prime. Lard quiet and prices without change. Sugar: raw is dull and in favor of buyers; sales 102 hhds at 4¼@5½c for Cuba, and 5@5½c for Porto Rico by auction.

Stocks dull and irregular. Chicago and Galena at 59¾, New York Central 73¾, Missouri 6's 38¼, Virginia 6's 41½, Tennessee 6's 37¾, Louisiana 6's 54½, California 7's 77, N. C. 6's 49½, U. S. 5's of '81 coupons 83½, U. S. 5's of '74 coupons 76½.

CINCINNATI MARKET, June 24.

The provision market remains about as blank as heretofore, so far as quotations are concerned. There are sales making daily in a quiet way, in small amounts, but the prices are kept in reserve. Both mess pork and bacon were handled in this way to-day; $14 for mess pork and 4@6c may be regarded as the outside figures. Bacon is relatively lower than the bulk meat, especially that which has been smoked any time. The stock of mess pork is quite reduced. We presume it does not exceed 11,000 bbls.

ST. LOUIS MARKET, June 24.

Tobacco—Market active, and prices still advancing, particularly shipping leaf. Sales 1 hhd factory lugs at $3 60; 17 hhds planters' do, from $3 65 to 4 90; 12 hhds second shipping from $5 20 to 6 85; 11 hhds first do, from $7 35 to 8 95; 4 hhds common manufacturing from $5 to [illegible]; 2 hhds medium do, at $6 95; and 1 hhd good do, at $8 90, also 2 boxes at $3 and $4 80 ⅌ 100 lbs.

Bacon—Market flat and there is nothing doing.

Whisky—Supplies in few hands are held at 13c, and offers of 12½c are refused. No sale reported.

Potatoes—Market flat and difficult to find buyer; 500 bags were sold at 15c ⅌ bag.

Beans—A lot of 225 bushels extra choice navy were purchased on an Eastern order at $1 40. Market for ordinary qualities extremely dull.

Seed—Sales 43 bags Hungarian in new bags at 25c ⅌ bushel.

Hides—Supplies small and market quiet at 6c for flint.

Butter—Sales 4 pkgs Western at 5c, and 2 pkgs extra choice table at 9c.

MATRIMONIAL INFELICITIES.

BY AN IRRITABLE MAN.

Early in the Morning.—"There must be different regulations in this house, my dear," I said, rearranging my pillow, after a vain attempt to gain a short nap; "for I won't endure any longer having the children wake me so early in the morning. If they will get up before daylight, they must remain in the nursery, and not come into our room with their laughter and shouts of good morning. The fact is, if there is one thing I dislike more than another, it is to be aroused from my slumbers with the cries of 'good morning,' for it is anything but good to be thus disturbed."

"But you must allow, my dear," rejoined my wife, "that it is very pretty in the children to do this. Then that little three year old one, who always adds to her 'good morning' a 'wish you a merry Christmas'—can anything be more childlike and beautiful?"

"Oh, it's all well enough," I said; "but I don't see the use of it so early in the morning. If she would say it at night when she goes to bed, I could better appreciate it. It has always been a matter of wonderment to me why children will wake with the birds."

"The reason is very simple," my wife answered; "it is because they go to bed with them. No sooner do you come home in the afternoon than you begin to tell the children it is time for them to prepare for bed; and even when you are in the best of humor you don't seem contented until they are safely ensconced in their cribs. Now, if you were to go to bed at six or seven o'clock, as they do, I think you would also wake up as early in the morning."

"Perhaps so," I replied; "but what would be the object for me to go to bed so early?"

"Why, as you tell the children," my wife said maliciously, "to make you grow."

Now, I am rather short; but I think my age warrants me in presuming I shall never be any taller, so that when my wife answered as she did, it provoked me. Although naturally an irritable man, I have the faculty of controlling my temper when I think it is desirable to do so, and, on the present occasion, I contented myself with silently wishing my amiable spouse in Jericho. Seeing I made no answer, my wife continued:

"If it were not that the children woke you, you wouldn't get up till ten o'clock. Notwithstanding they wake you thus early, you don't rise until the bell is rung for breakfast, and then I have to call you, over and over again, until my breath is almost gone, and I havn't strength left to serve the coffee."

"I should not think it required a great deal of strength to open the faucet of the coffee urn, especially as I have heard you complain that it often drops of its own accord, and allows the coffee to run at will."

"Oh, well, make as much sport of me as you like, but don't complain if, when you go to breakfast, this morning, everything on the table, including the coffee, be cold; for positively I will not call you. If you won't get up when the bell rings, why you can lie abed and eat a cold breakfast after the others have finished."

"Very well, my dear," I said; "have it your own way, though if I can't have in this house my breakfast, and a hot one at that, any hour I may wish it, why I can get it at Delmonico's, when I go down town. On the whole, I think I should prefer, for a change, to do so. I should not have to wait on the children, carving tough steaks, nor will you have to turn out coffee for me."

"Well, do you know," said my wife, "I really believe you would like to do that. I think you would actually enjoy taking your meals away from your family. You wouldn't mind anything about the expense of such proceedings so long as it was for your gratification; but if I should do so, you would declare it the height of foolishness. Why, if I stop at Mendes's and get a cup of chocolate some day when I am wearied out with shopping for you and the children, you think it extravagant, and I never, indeed, hear the last of it."

"Well, but chocolate is such abominable stuff," I said; "it sticks up one's moustache so. I cannot imagine how any one can like it."

"Fortunately," my wife said, "I have no moustache to be soiled with it, and, besides, I like chocolate."

"Very well, if you like it," I said, "I am sure I have no objections to your drinking it; but don't, for gracious sake, be recommending it to me, for if there be one thing I dislike more than another it is chocolate."

"But I have not recommended it," my wife replied, "though I think it would be better for you to drink than the strong coffee you now use. Coffee makes you nervous and irritable."

"I am not irritable," I said, "and I doubt if a more even tempered and amiable man does, or ever did, or ever will exist, than I am."

"My father," began my wife; but I interrupted her with declaring that I didn't wish to hear a word about her father or his amiability. My wife put her handkerchief to her eyes.

"No," she exclaimed, "you never will permit me to say a word about my dear father. If he had known when he resigned me to you, that you would have treated me in the harsh manner in which you do, he never would have given his consent for you to marry me."

"Then ours would have been a runaway match, my dear, that is certain; for you were so deeply in love with me that all the fathers in Christendom couldn't have kept you away from me."

"Oh, yes, you may say that," my wife said, smiling, in spite of herself; "but if you think such light talk is going to make me forget your unkind expressions in regard to my father, you are much mistaken. I only wish I had known as much when I married you as I do now."

"I really wish you had," I replied, "for then I should not have experienced the annoyance which your lack of housekeeping knowledge has brought upon me. If, when we were first married, you had known as much about cooking as you now do, how much better I might have lived! What delicate light biscuit I should have eaten, instead of the heavy ones I have been obliged to devour! What juicy meats I might have carved, in place of the overdone joints I have had to dissect! What—"

"Never mind," interrupted my wife, "going any further into the subject, for the knowledge I regret not to have possessed has no reference to any housekeeping accomplishments. I refer to your irritable disposition, which, if I had been aware you possessed, would have deterred me from marrying you."

"Good gracious! my dear," I exclaimed, "you don't say so! How glad I am that you didn't find it out. Just to think that if you had known as much about me nine years ago as you do now, we would not have been married! What a narrow escape I had of being a bachelor!"

"There it is again," my wife said, "make as much fun about what I say as you like, sneer at me as much as you please; but I guess that one of these days you'll find I am in earnest."

"Well, my dear, all I can say is that I should be very sorry to believe it. If I am irritable, as you declare I am, perhaps there are some acts of yours which serve to make me so; at all events, you must endeavor to bear with my humors and I will endure yours. But, don't you think we had both better get up, for it must be nearly 8 o'clock, and at this season of the year I don't care to lie abed any later."

And, rising, I left my amiable spouse to her reflections.

GARDENS FOR HEALTH.—On every side we hear it said that American merchants, lawyers, and mechanics are annually growing feebler and becoming shorter lived, and all for lack of cheerful exercise in the open air. This fact becoming widely known, has led to the establishment of gymnasiums, boat-clubs, &c., all over the country. For persons who cannot get muscular exercise in any other way, this is all very well. But he who can get control of ground enough for a garden, will be much better off, and especially if he own the garden. This pleasing occupation is far more healthful than wrenching gymnastics practiced by the clock, or the highly exciting and overtaxing exertions of boat-racing, and ball-playing. Morning and evenings spent at home—pruning and hoeing and weeding and training—so employed, how can one help being happy and healthy? It would be an evil day for a man so situated to hire a gardener to do all his work. What harm is there in a little sweat, a little dirt, a few blisters, if thereby one keeps dyspepsia and ill health generally at a distance?

Mice Utilized by a Scotchman.—A man in Scotland has trained a couple of mice to spin cotton very successfully. The work is so constructed that the common mouse is able to make atonement to society for past offences, by twisting twine and reeling from one hundred to one hundred and twenty-six threads per day. To complete this, the little pedestrian has to run 10½ miles. A half penny worth of oatmeal serves one of these tread-wheel spinners for the long period of five weeks. In that time it makes one hundred and ten threads per day. At this rate a mouse earns 7s 6d per annum. Take off 5d for food and 1s for machinery, there will rise 6s clear for every mouse per annum.

ITEMS.

PROF. WOOD'S HAIR RESTORATIVE!

See what a distinguished St. Louis Physician says of it:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.: Dear Sir: Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks' time there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft, and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones, throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself, advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some other name in place of yours.

I have within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

Yours, truly,
JAMES WHITE, M. D.

WARREN SPRINGS, Perry county, Pa.,
June 7th, 1860.

PROF. WOOD: Dear Sir:—I was induced, more than a year ago, to try your valuable Hair Restorative, for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and am now prepared to recommend it to universal use; for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you.

Yours, &c.,
H. H. ETTER.

BLOOMINGTON, IND., July 30th, 1859.

DEAR SIR—I here send you a statement that I think you are entitled to the benefit of. I am a resident of Bloomington, and have been for over thirty years. I am now over 50 years of age. For about twenty years past, my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative, but supposed there was more fiction than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days a beautiful black, I concluded I would make the experiment, commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directions as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it, till I have used three of your small bottles, and just begun on the fourth. I have now as pretty a head of dark brown or light black hair as any man, or as I had in my youthful days, when a boy in the hills of Western Virginia. My head is entirely free of dandruff, and the hair ceased entirely falling off, and is as soft and fine, and feels as oily, as though it was just from under the hands of a French champooner. Many of my acquaintances frequently say to me, "Butler, where did you get that fine wig?" I tell them it was the effect of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head. Yours, truly,

FREDERICK T. BUTLER,
Bloomington, Monroe county, Indiana.

PROF. O. J. WOOD'S HAIR RESTORATIVE

Is the only reliable article for you to use,

FOR STATESMEN, JUDGES, CLERGYMEN,

Ladies and gentlemen, in all parts of the world, testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the press are unanimous in its praise. A few testimonials only can be here given; see circular for more, and it will be impossible for you to doubt.

PROFESSOR S. THALBERG, PIANIST,

says on his arrival in the United States he was rapidly becoming gray, but on applying Wood's Hair Restorative his hair soon recovered its original hue.

CHARLES CARDEW, 18 NASSAU STREET, N. Y.,

says the gray hairs on his wife's head were, after a few weeks' trial, turned into a dark brown, at the same time beautifying and thickening the hair.

A. C. RAYMOND, BATH, MAINE,

says he is now sixty years old, and his hair and whiskers were two-thirds gray, but by the use of two bottles of Restorative, the gray hairs have disappeared, both on his head and face, and is more soft and glossy than for twenty-five years previous. His wife, at the age of fifty-two, has used it with the same effect.

FINLEY JOHNSON, ESQ., NEW ORLEANS,

says that he lost his hair by the Yellow Fever, in 1854. He used Wood's Hair Restorative, and his hair is now thick and glossy.

M. J. MIDDLETON, LIVINGSTON, ALABAMA,

says the Restorative has done much good in his part of the country. He used it for baldness, and now has a fine head of hair.

T. L. MORSE, LEBANON, KENTUCKY,

says he has seen Wood's Hair Restorative used in hundreds of cases, and never knew it to fail in accomplishing all it professes to do.

A. J. ALDEN, McLANESBORO', ILLINOIS,

says he had the scald head eight years, and was bald, but by the liberal use of Wood's Hair Restorative, he now has a rich, glossy head of hair.

LIGONIER, Noble co., Ind., Feb. 5, 1859.

Prof. O. J. Wood—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurances from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect. Very respectfully, yours,

A. M. LATTA,
Attorney and Counsellor at Law.

IF YOUR HAIR IS HARSH,

THE PENNSYLVANIA CENTRAL

RAILROAD.

260 Miles—Double Track.

The Capacity of this Road is now equal to any in the Country.

THREE THROUGH

Passenger Trains

BETWEEN PITTSBURG AND PHILADELPHIA,

CONNECTING direct in the Union Depot, at Pittsburg, with through trains from all Western cities for Philadelphia, New York, Boston, Baltimore and Washington City, thus furnishing facilities for the transportation of passengers unsurpassed for speed and comfort by any other route.

Express and Fast Lines run through to Philadelphia without change of cars or conductors.

Smoking cars are attached to each train; Woodruff's Sleeping Cars to Express and Fast Trains. The EXPRESS RUNS DAILY, Mail and Fast Line Sundays excepted. Three Daily Trains connect direct for New York. Express and Fast Line connect for Baltimore and Washington.

All Through Passenger Trains provided with Loughridge's Patent Brake—speed under perfect control of the Engineer, thus adding much to the safety of travelers.

Six Daily Trains between Philadelphia and New York. Two Daily Trains between New Bork and Boston. Through Tickets (all rail) are good on either of the above Trains.

BOAT TICKETS to Boston are good via Norwich, Fall River, or Stonington Lines. Boston passengers transferred free of charge through New York.

TICKETS EASTWARD may be obtained at any of the important Railroad offices in the West; also on board any of the regular Line of Steamers on the Mississippi and Ohio Rivers; and at the Offices of the Company in Boston, New York, Baltimore, or Philadelphia.

Fare always as low and time as quick as by any other Route.

ASK FOR TICKETS BY PITTSBURG.

The completion of the Western connections of the Pennsylvania Railroad make this the

Direct Line Between the East and the GREAT WEST.

The connecting of tracks by the Railroad Bridge at Pittsburg, avoiding all drayage and ferriage of Freight, together with the saving of time, are advantages readily appreciated by Shippers of Freight and the Traveling Public.

For Freight Contracts or Shipping Directions apply to or address either of the following Agents of the Company—

D. A. STEWART, Pittsburgh; H. S. Pierce & Co., Zanesville, O.; J. J. Johnston, Ripley, O.; R. McNeely, Maysville, Ky.; Ormsby & Cropper, Portsmouth, Ohio; Paddock & Co., Jeffersonville, Ind.; H. W. Brown & Co., Cincinnati, O.; Athern & Hibbert, Cincinnati, O.; R. C. Meldrum, Madison, Ind.; Jos. E. Moore, Louisville, Ky.; P. G. O'Riley & Co., Evansville, Ind.; N. W. Graham & Co., Cairo, Ill.; R. F. Sass, Shaler & Glass, St. Louis, Mo.; John H. Harris, Nashville, Tenn.; Harris & Hunt, Memphis, Tenn.; Clark & Co., Chicago, Ill.; W. H. H. Koontz, Alton, Ill.; or to Freight Agents of Railroads at different points in the West.

The Greatest Facilities offered for the Protection and Speedy Transportation of LIVE STOCK.

And Good Accommodations, with usual privileges for persons traveling in charge thereof.

FREIGHTS.

By this route freights of all descriptions can be forwarded to and from Philadelphia, New York, Boston, or Baltimore, to and from any point on the Railroads of Ohio, Kentucky, Indiana, Illinois, Wisconsin, Iowa, or Missouri by railroad direct.

The Pennsylvania Railroad also connects at Pittsburg with steamers, by which goods can be forwarded to any Port on the Ohio, Muskingum, Kentucky, Tennessee, Cumberland, Illinois, Mississippi, Wisconsin, Missouri, Kansas, Arkansas, and Red rivers; and at Cleveland, Sandusky, and Chicago with steamers to all ports on the Northwestern Lakes.

Merchants and Shippers entrusting the transportation of their freight to this Company can rely with confidence on its speedy transit.

THE RATES OF FREIGHT to and from any point in the West by the Pennsylvania Railroad, are at all times as favorable as are charged by any other Railroad Companies.
